

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

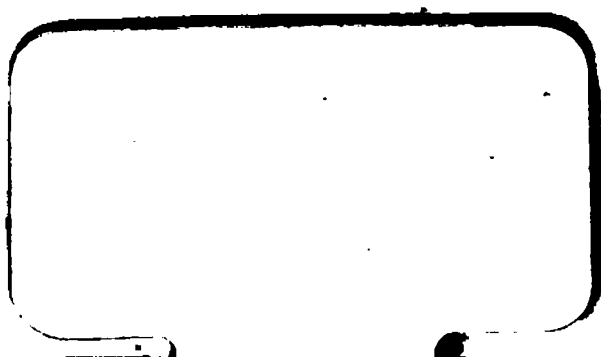

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. GENERAL ORDERS, } HEADQUARTERS OF THE ARMY,
 } ADJUTANT GENERAL'S OFFICE,
 } *Washington, January 4, 1898.*
 No. 2.

By direction of the Acting Secretary of War, the following is published to the Army for the information and guidance of all concerned:

The attention of officers of the Quartermaster's Department is invited to the following circular of the Honorable Secretary of the Treasury, No. 187, of date November 11, 1897:

By the terms of an agreement recently entered into between the Secretary of the Treasury and the Union Pacific Reorganization Committee for the settlement and payment in full to November 1, 1897, of the indebtedness of the Union Pacific Railway Company to the United States, all claims for services rendered by the said company to the United States remaining unsettled or unpaid on November 1, 1897, and all claims for like service thereafter rendered are required to be paid to the company in cash.

In order, therefore, to facilitate the adjustment of matters involved in such settlement and to carry into full effect the terms of said agreement, it is hereby ordered that all pending claims for transportation services heretofore rendered by said company to the United States, and all claims for like services hereafter rendered, shall be settled by the accounting officers in favor of said company without reference to bond and interest account or to the requirements of the sinking fund created by the act of May 7, 1878.

The provisions of Department Circular No. 45, of March 9, 1895, are hereby modified accordingly.

Also to the decision of the Honorable Secretary of the Treasury of December 4, 1897:

That accounts for services rendered for the Government over the main line of the Union Pacific from Council Bluffs to Ogden remaining unpaid, may be paid either by the disbursing officers of the War Department or through the accounting officers of the Treasury as may be most convenient.

Also to the fact that of dates November 29 and December 24, 1897, the Auditor of the Union Pacific Railway Company has suggested that:

There is no necessity now for issuing more than one bill of lading or Government transportation request for service between any two points on the Union Pacific System except where one of the points is on the aided portion of the Kansas Division.

The Receivers of the Union Pacific System will accept a single through bill of lading or transportation request covering service for any department of the U. S. Government, either way, over any of the lines under their jurisdiction, when presented by any connecting line.

Officers of the Quartermaster's Department are, therefore, hereby instructed that so much of A. R. 1093 and 1147, General Orders No. 77, 1892, Adjutant General's Office, and circular of the Quartermaster General's Office of April 13, 1895, as require the issuance of separate transportation requests and bills of lading for services over the Union Pacific Railway between Omaha, Nebraska, and Ogden, Utah, are hereby revoked, and a single request or bill of lading may be issued, where the travel is to or from points on the Union Pacific Railway above indicated in connection with roads other than the bond-aided Central Pacific, Kansas Division of the Union Pacific, or the Sioux City and Pacific railroads.

All existing instructions requiring the use of the Union Pacific between Omaha and Ogden as a bond-aided railroad are hereby revoked, and the same regulations as apply to transportation over other all-cash lines will hereafter apply to transportation for the Army over the Union Pacific lines as above referred to, and accounts for such service may hereafter be stated and paid by the disbursing Quartermasters of the Army under the same regulations which govern other cash lines.

In deciding upon the route for passengers and freight, hereafter, officers issuing transportation will take the new conditions governing the Union Pacific Railroad into account in calculating cost.

In each of the four corners shall be a five-pointed white star with one point upward. The points of these stars lie in the circumference of an imaginary circle of 5 inches radius. The centers of these imaginary circles, which coincide with the centers of these stars, are 18 inches from the short sides and 14 inches from the long sides of the flag. In the center of the flag shall be a large fifth star, also of five points, which lie in the circumference of an imaginary circle of 2 feet 9 inches radius. The center of this circle is the point of intersection of the diagonals of the flag. The reentering angles of this large star lie in the circumference of an imaginary circle of 16 inches radius, with the same center as before. Inside of the star thus outlined is a parallel star, separated from it by a band of white 3 inches wide. This inner star forms a blue field upon which is the official coat of arms of the United States as determined by the State Department, the device being located by placing the middle point of the line dividing the chief from the paleways of the escutcheon upon the point of intersection of the diagonals of the flag, and thus coinciding with the center of the large center star. On the scarlet field around the large star are other white stars, one for each State, equally scattered in the reentering angles, and all included within the circumference of a circle of 3 feet 3 inches radius, whose center is the center of the large star.

COLORS.

For the President.

214b. Of scarlet silk, 6 feet 6 inches fly and 4 feet on the pike, which shall be 10 feet long, including ferrule and head. The head shall consist of a globe, 3 inches in diameter, surmounted by an American eagle, alert, 4 inches high. In each of the four corners shall be a five-pointed white star. The points of these stars lie in the circumference of an imaginary circle of $2\frac{1}{2}$ inches radius. The centers of these imaginary circles, which coincide with the centers of these stars, are 9 inches from the short sides and 7 inches from the long sides of the color. In the center of the color shall be a large fifth star, also of five points, which lie in the circumference of an imaginary circle of $16\frac{1}{2}$ inches radius. The center of this circle is the point of intersection of the diagonals of the color. The reentering angles of this large star lie in the circumference of an imaginary circle of 8 inches radius, with the same center as before. Inside of the star thus outlined is a parallel star, separated from it by a band of white $1\frac{1}{2}$ inches wide. This inner star forms a blue field, upon which is the official coat of arms of the United States as determined by the State Department, the device being located by placing the middle point of the line dividing the chief from the paleways of the escutcheon upon the point of intersection of the diagonals of the color, and thus coinciding with the center of the large center star. On the scarlet field around the large star are other white stars, one for each State, equally scattered in the reentering angles, and all included within the circumference of a circle of $19\frac{1}{2}$ inches radius, whose center is the center of the large star. The design, letters, figures, and stars are to be embroidered in silk, the same on both sides of the color. The edges of the color are to be trimmed with knotted fringe, of silver and gold, 3 inches wide, and one cord (having two tassels) 8 feet 6 inches long and made of red, white, and blue silk intermixed.

ARTICLE III.

The introduction and use of evidence of previous convictions is subject to the following regulations:

1. Such evidence shall be limited to previous convictions by courts-martial of an offense or offenses within one year preceding the arraignment and during the current enlistment. These convictions must be proved by the records of previous trials and convictions, or by duly authenticated copies of such records, or by duly authenticated copies of the orders promulgating such trials and convictions. Charges forwarded to the authority competent to order a general court-martial, or submitted to a summary, garrison, or regimental court-martial, must be accompanied by the proper evidence of previous convictions.

2. Whenever a soldier is convicted of an offense for which a discretionary punishment is authorized, the court will receive evidence of previous convictions, if there be any. General, regimental, and garrison courts-martial will, after a finding of guilty, be opened for the purpose of ascertaining whether there is such evidence and, if so, of receiving it.

3. *Previous convictions in connection with inferior court offenses.*—When a soldier is convicted of an offense the punishment for which under Article II of this order or the custom of the service does not exceed that which an inferior court-martial may adjudge, the punishment so authorized may, upon proof of four or less previous convictions within the prescribed period, be increased one-half for each of such previous convictions; provided that upon proof of five or more such previous convictions, the limit of punishment shall be dishonorable discharge, forfeiture of all pay and allowances, and confinement at hard labor for three months.

4. *Previous convictions in connection with general court-martial offenses.*—When the conviction is for an offense punishable under Article II of this order or the custom of the service with a greater punishment than an inferior court can award, such punishment, if it includes dishonorable discharge, shall not be increased by reason of previous convictions, but evidence thereof, whatever their number within the prescribed period, will be submitted to the court to aid it in determining upon the proper measure of punishment, subject to the limit already authorized.

If the authorized punishment under Article II of this order or the custom of the service exceeds what an inferior court can award and does not include dishonorable discharge, such

punishment shall not be increased on account of previous convictions if less than five are considered, but if there be five or more, the court may adjudge dishonorable discharge and forfeiture of all pay and allowances with the authorized confinement, and when this confinement is less than three months it may be increased to three months.

5. On a conviction of desertion evidence of convictions of previous desertions may also be introduced, irrespective of the period which may have elapsed since such conviction or convictions.

6. When a noncommissioned officer is convicted of an offense not punishable with reduction, he may, upon proof of one previous conviction within the prescribed period, be sentenced to reduction in addition to the punishment already authorized.

ARTICLE IV.

When a soldier shall, on one arraignment, be convicted of two or more offenses, none of which is punishable under Article II of this order or the custom of the service with dishonorable discharge, but the aggregate term of confinement for which may exceed six months, dishonorable discharge with forfeiture of pay and allowances may be awarded in addition to the authorized confinement.

ARTICLE V.

This order prescribes the *maximum* limit of punishment for the offenses named, and this limit is intended for those cases in which the severest punishment should be awarded. In other cases the punishment should be graded down according to the extenuating circumstances. Offenses not herein provided for remain punishable as authorized by the Articles of War and the custom of the service.

ARTICLE VI.

Summary courts are subject to the restrictions named in the 83d Article of War. Soldiers against whom charges may be preferred for trial by summary court shall not be confined in the guardhouse, but shall be placed in arrest in quarters, before and during trial and while awaiting sentence, except when in particular cases restraint may be necessary.

ARTICLE VII.

Substitutions for punishment named in Article II of this order are authorized at the discretion of the courts at the following rates:

Two days' confinement at hard labor for one dollar forfeiture; or the reverse; one day's solitary confinement on bread and water diet for two days' confinement at hard labor or for one dollar forfeiture; provided that a noncommissioned officer not sentenced to reduction shall not be subject to confinement; and provided that solitary confinement shall not exceed fourteen days at one time, nor be repeated until fourteen days have elapsed, and shall not exceed eighty-four days in one year.

ARTICLE VIII.

Noncommissioned officers above the rank of corporal shall not, if they object thereto, be brought to trial before regimental, garrison, or summary courts-martial, without the authority of the officer competent to order their trial by general court-martial; nor shall sergeants of the post noncommissioned staff or hospital stewards be reduced, but they may be dishonorably discharged whenever reduction is included in the limit of punishment.

The commanding officers of cavalry regiments will transfer to Troops L and M from other troops of their regiments, a sufficient number of noncommissioned officers and men to assure the prompt organization of these troops. The total number of men transferred to each of the new troops should be not less than twenty, and they should be selected with reference to their ability to assist in the instruction of recruits and the training of horses.

3. Every proper effort will be made by the regimental commanders to recruit their regiments, under the provisions of A. R. 856, to the legal strength. The enlistments will be governed by the provisions of Circular No. 3, Adjutant General's Office, November 12, 1895, paragraphs 2, 3, 4b, and 6.

The limit for each company of infantry is: One first sergeant, one quartermaster sergeant, four sergeants, twelve corporals, two musicians, one artificer, one wagoner, and eighty-four privates; total enlisted, one hundred and six.

The limit for each troop of cavalry is: One first sergeant, one quartermaster sergeant, six sergeants, eight corporals, two farriers and blacksmiths, two trumpeters, one saddler, one wagoner, seventy-eight privates; total enlisted, one hundred.

The limit for each battery of heavy artillery is: One first sergeant, twenty-two sergeants, ten corporals, two musicians, two artificers, one wagoner, one hundred and sixty-two privates; total enlisted, two hundred.

The limit of each battery of field artillery is: One first sergeant, one quartermaster sergeant, one veterinary sergeant, six sergeants, fifteen corporals, two farriers, two artificers, one saddler, two musicians, one wagoner, one hundred and forty-one privates; total enlisted, one-hundred and seventy-three.

4. Regimental commanders are authorized to send recruiting parties into any territory not already occupied by parties from other organizations of the same arm, having due regard to economy in transportation. Each recruiting officer thus detailed will also be an acting quartermaster.

5. Arrangements will be made through the Quartermaster's Department, when necessary, for renting under emergency agreements suitable quarters for temporary recruiting stations and the furnishing of supplies therefor. Arrangements will also be made with the proper officers of the Subsistence Department for the subsistence of recruiting parties and recruits.

6. Requisitions for the necessary clothing, arms, equipments, and horses will be made at once. Where it is practicable to obtain these supplies without great delay, in whole or in part, from posts recently garrisoned by regiments, commanding officers will take the necessary action for securing them, in order to avoid unnecessary requisitions upon supply departments at this time.

7. Regimental enlistments under this order will be supplemented by general service recruits, as follows:

(a) General service recruiting officers, whether at city stations or posts, will make enlistments for their own regiments to fill vacancies therein, and will send soldiers thus enlisted with the least practicable delay, in small detachments, to points indicated by the respective regimental commanders.

Such enlistments will be governed by the provisions of Circular, No. 3, Adjutant General's office, November 12, 1895, paragraphs 1, 3, 4a, 5, and 6.

(b) Other assignments of recruits from general recruiting stations and rendezvous will be made by the Adjutant General, when necessary, under A. R. 849.

8. When a regiment approaches the maximum limit, the regimental commander will notify the officers recruiting therefor, and also the Adjutant General, in order to prevent enlistments for or assignments to the regiment which would carry it above the legal strength.

9. The general service recruiting officers at Boston, Mass., New York City and Albany, N. Y., Philadelphia, Pa., Baltimore, Md., and Louisville, Ky., will make enlistments for the Battalion of Engineers, to fill vacancies therein of which they may be notified, from time to time, by the battalion commander, and will send soldiers thus enlisted, in small detachments, to such points as may be indicated by him. Such enlistments will be governed by the provisions of Circular, No. 3, Adjutant General's Office, November 12, 1895, paragraphs 1, 3, 4a, 5, and 6.

The limit for each company of engineers is: One first sergeant, ten sergeants, ten corporals, two musicians, sixty-four first-class privates, sixty-three second-class privates; total enlisted, one hundred and fifty.

If a member of the National Guard, he must present recommendations from the proper National Guard authorities:

II.—Every candidate will be subjected to a rigid physical examination, and if there be found to exist any cause of disqualification which might in the future impair his efficiency

as an officer of the Army, ne will be rejected. The board will inquire and report concerning each applicant whether he is of good moral character or addicted to the use of intoxicating liquors. Examination as to physical qualifications will conform to the standard required of recruits, and include a certificate of physical examination by two medical officers to accompany the proceedings of the board (which will embrace all the information required by the form for the examination of recruits).

III.—No candidate will be examined who is under twenty-one or over twenty-seven years of age; who is not a citizen of the United States; who, in the judgment of the board, is not physically qualified to discharge all the duties of an officer in active service; who has any deformity of body or mental infirmity, or whose moral habits are bad.

IV.—The board being satisfied as to these preliminary points, will proceed to examine each candidate separately—

1. In his knowledge of English grammar, and his ability to read, write, and spell with facility and correctness.

2. In his knowledge of arithmetic, and his ability to apply its rules to all practical questions; in his knowledge of the use of logarithms, and ability to apply them to questions of practice; in his knowledge of algebra, to include the solution of simple equations, and in his knowledge of geometry, plane trigonometry, and the elements of surveying.

3. In his knowledge of geography, particularly in reference to the northern continent of America.

4. In his knowledge of the outlines of general history, and particularly the history of his own country.

5. In his knowledge of the Constitution of the United States and the organization of the Government under it, and the elements of international law.

6. The board, having examined into the mental qualifications of each candidate and his character for sobriety and fidelity, will also inquire into his general qualifications, aptitude, and probable efficiency as an officer of the Army.

V.—In awarding marks the board will give to each subject in the examination the relative weight given in the form following below. The general average of the candidate will be computed as follows:

Mark each question according to its relative weight, and reduce the aggregate of marks thus obtained in each subject to a scale of 100. The result will give the average of proficiency in the subject. Multiply the average in each subject by the number indicating the relative weight of the subject and divide the sum of the products by the sum of the relative weights; the quotient will be the general average. No candidate will be passed by the board who shall not have attained an average of 65 per cent in each subject of examination and a general average of at least 70 per cent.

No. 47.		ADJUTANT GENERAL'S OFFICE, <i>Washington, May 17, 1898.</i>

By direction of the Secretary of War, the following instructions from the Treaty Articles of the Geneva Convention, together with regulations for their observance, are published for the information of all concerned:

EXTRACTS FROM THE TREATY ARTICLES OF THE GENEVA
 CONVENTION.

ARTICLE I. Ambulances and military hospitals shall be acknowledged to be neuter, and, as such, shall be protected and respected by belligerents so long as any sick or wounded may be therein.

Such neutrality shall cease if the ambulances or hospitals should be held by a military force.

ART. II. Persons employed in hospitals and ambulances, comprising the staff for superintendence, medical service, administration, transport of wounded, as well as chaplains, shall participate in the benefit of neutrality, whilst so employed, and so long as there remain any wounded to bring in or to succor.

ART. III. The persons designated in the preceding article may, even after occupation by the enemy, continue to fulfill their duties in the hospital or ambulance which they serve, or may withdraw in order to rejoin the corps to which they belong.

Under such circumstances, when these persons shall cease from their functions, they shall be delivered by the occupying army to the outposts of the enemy.

ART. IV. As the equipment of military hospitals remains subject to the laws of war, persons attached to such hospitals can not, in withdrawing, carry away any articles but such as are their private property.

Under the same circumstances an ambulance shall, on the contrary, retain its equipment.

* * * * *

ART. VI. Wounded or sick soldiers shall be entertained and taken care of, to whatever nation they may belong.

Commanders-in-chief shall have the power to deliver immediately to the outposts of the enemy soldiers who have been wounded in an engagement, when circumstances permit this to be done, and with the consent of both parties.

Those who are recognized, after their wounds are healed, as incapable of serving, shall be sent back to their country.

The others may also be sent back, on condition of not again bearing arms during the continuance of the war.

Evacuations, together with the persons under whose directions they take place, shall be protected by an absolute neutrality.

ART. VII. A distinctive and uniform flag shall be adopted for hospitals, ambulances, and evacuations. It must, on every occasion, be accompanied by the national flag. An arm-badge (brassard) shall also be allowed for individuals neutralized, but the delivery thereof shall be left to military authority.

The flag and the arm-badge shall bear a red cross on a white ground.

* * * * *

Additional Articles.

ARTICLE I. The persons designated in Article II of the Convention shall, after the occupation by the enemy, continue to fulfill their duties, according to their wants, to the sick and wounded in the ambulance or the hospital which they serve. When they request to withdraw, the commander of the occupying troops shall fix the time of departure, which he shall only be allowed to delay for a short time in case of military necessity.

* * * * *

ART. III. Under the conditions provided for in Articles I and IV of the Convention, the name "ambulance" applies to field hospitals and other temporary establishments, which follow the troops on the field of battle to receive the sick and wounded.

* * * * *

ART. V. In addition to Article VI of the Convention, it is stipulated that, with the reservation of officers whose detention might be important to the fate of arms and within the limits fixed by the second paragraph of that article, the wounded fallen into the hands of the enemy shall be sent back to their country, after they are cured, or sooner, if possible, on condition, nevertheless, of not again bearing arms during the continuance of the war.

REGULATIONS.

1. All persons connected with the Medical Department of the Army in the field, or referred to in Article II of the Treaty, shall wear habitually during the war, on the left sleeve of the coat, midway between the shoulder and elbow, a brassard or arm-badge, consisting of a red cross on a white ground.

2. All hospitals, ambulances, and field stations of the Medical Department will habitually display the Red Cross flag accompanied by the national flag.

3. Permits, in duplicate, for civilian to be present with the Army, in the service of the Medical Department, may be given by authority of a Division Commander; one copy of the permit will be retained by the person neutralized, and its duplicate should be forwarded promptly to the Chief Surgeon of the Army.

4. Persons neutralized under this authority will report themselves at once to the Chief Surgeon of Division for instructions.

5. The wearing of the arm brassard by any person not officially neutralized is prohibited.

No. 49.		<i>Washington, May 19, 1898.</i>

By direction of the Secretary of War, paragraphs 926 and 929 of the Regulations are amended to read as follows:

926. The commanding officer of a post where a general court-martial is convened will, at the request of any prisoner who is to be arraigned, detail as counsel for his defense a suitable officer, one not directly responsible for the discipline of an organization serving thereat, nor acting as a summary court. If there be no such officer available the fact will be reported to the appointing authority for action. An officer so detailed should perform such duties as usually devolve upon counsel for defendant before civil courts in criminal cases. As such counsel he should guard the interests of the prisoner by all honorable and legitimate means known to the law, so far as they are not inconsistent with military relations.

929. Whenever a soldier is convicted of an offense for which a discretionary punishment is authorized, the court will receive evidence of previous convictions, if there be any; such evidence being limited, except in the case of desertion, to previous convictions by courts-martial of any offense or offenses within one year preceding the arraignment and during the current enlistment. General, regimental, and garrison courts-martial will, after a finding of guilty, be opened for the purpose of ascertaining whether there is such evidence, and, if so, of receiving it. Previous convictions by courts-martial must be proved by the records of previous trials and convictions, or by duly authenticated copies of such records, or by duly authenticated copies of the orders promulgating such trials. The usual evidence of previous convictions by summary court is the copy of a summary court record furnished to company and other commanders, as required by paragraph 932, Army Regulations, or one furnished for the purpose, and certified to be a true copy by the post commander or adjutant. When the proof produced is the copy furnished to the company or other commander, it will be returned to him and a copy of it attached to the record of the general, regimental, or garrison court trying the case. Charges forwarded to the authority competent to order a general court-martial, or submitted to a

summary, garrison, or regimental court-martial, must be accompanied by the proper evidence of previous convictions.

In order to expedite the organization and equipment of each regiment, the regimental quartermaster and adjutant selected may be at once commissioned first lieutenants, but the commissions of the other officers as prescribed by the law will not be issued from the Adjutant General's Office until the established number of men are ready for muster into service. Regulations for the guidance of examining boards, and establishing the scope of the examination for applicants for commissions for each of the

branches of the service herein provided for, will be announced hereafter.

Such of them as show aptitude in the handling of men and can demonstrate in other regards their fitness for it to the satisfaction of an examining board will be entitled to promotion to commissioned rank.

All applications for commissions in regiments of either branch of the force, or for information concerning them, will be addressed to the Adjutant General of the Army and be marked "United States Volunteer Engineers" or "United States Volunteer Infantry." Each applicant will state his age, where born, whether a citizen of the United States, his residence and educational qualifications. If an applicant for appointment in the engineer brigade, his special technical qualifications, if for appointment in a regiment of volunteer infantry, his educational qualifications must be stated.

4. The officers designated to organize regiments under these rules will at the proper time make requisitions on the several staff departments for arms, equipments, clothing and camp equipage, indicating the point to which supplies are to be sent; and they will keep the Adjutant General of the Army advised as to progress of the recruitment and organization of their several commands.

5. The provisions of General Orders, No. 26, Adjutant General's Office, 1898, for meeting expenses connected with the raising of volunteers under said quotas are hereby made applicable to the recruitment of regiments of this force. Expenditures of this account must be limited to cases of absolute necessity. Special care will be observed that no man be enrolled who lacks the requisite moral and physical qualification. GENERAL ORDERS,	}	HEADQUARTERS OF THE ARMY,
		ADJUTANT GENERAL'S OFFICE,
No. 57.		<i>Washington, May 30, 1898.</i>

After a prolonged period of peace our Army is once more called upon to engage in war in the cause of justice and humanity. To bring the military forces to the highest state of efficiency and most speedily accomplish what is expected should be the earnest effort, and call forth the best energies of all its members of whatsoever station.

The laws and regulations which govern military bodies in civilized countries have been developed to their present perfection through the experience of hundreds of years, and the

faithful observance of those laws and regulations is essential to the honor and efficiency of the Army.

All authority should be exercised with firmness, equity, and decorum on the part of superiors, and should be respected by implicit obedience, and loyal support from subordinates.

Every officer of whatever grade will, so far as may be in his power, guard and preserve the health and welfare of those under his charge. He must labor diligently and zealously to perfect himself and his subordinates in military drill, instruction, and discipline; and above all, he must constantly endeavor, by precept and example, to maintain the highest character, to foster and stimulate that true soldierly spirit and patriotic devotion to duty which must characterize an effective army. The Major General Commanding confidently trusts that every officer and soldier in the service of the Republic, each in his proper sphere, will contribute his most zealous efforts to the end that the honor and character of the Army may be preserved untarnished, and its best efforts crowned with success.

This order is given upon a day sacred to the memory of the heroic dead, whose services and sacrifices afford us example and inspiration, and it is expected that all will be fully impressed with the sacred duty imposed upon the Army by the government of our beloved country.

No. 61.		ADJUTANT GENERAL'S OFFICE, <i>Washington, June 1, 1898.</i>

Under and in pursuance of the President's proclamation of May 25, 1898, calling forth volunteers to the aggregate number of 75,000, and of section 7 of an act of Congress approved April 22, 1898, which provides that no new organizations shall be accepted into the service from any State unless the organizations already in service from such State are as near to their maximum strength as the President may deem necessary, the following general rules for accomplishing the objects of said proclamation are announced by the Secretary of War for the information and guidance of all concerned:

1. Organizations already accepted and mustered into the United States service under the President's proclamation of April 23, 1898, will be expanded: first, by recruiting such companies thereof as have been mustered in to the maximum enlisted strength prescribed in the act of Congress approved April 26, 1898, and published in General Orders, No. 29, April 29, 1898, from this office; second, *except for cavalry*, by the organization of additional companies necessary for the completion of regiments to twelve companies, and battalions to four companies, of the maximum enlisted strength above indicated. The number of recruits required for each organization already in service will be determined by the Adjutant General of the Army, under whose direction and supervision the recruitment herein ordered will be conducted.

Each recruiting officer thus detailed will also be an acting quartermaster.

Arrangements will be made with the chief commissary of the department, as above, for the subsistence of recruiting parties and recruits. Recruits will be sent under charge of the most reliable one of their number, to their several regiments in small squads without uniform, arms, or equipment. Each commander detailing a recruiting officer under these instructions will promptly mail to the chief commissary and chief quartermaster, respectively, of the department into which the recruiting officer is sent, a copy of the order of detail with the signature of the recruiting officer inscribed upon the same.

5. Additional companies necessary for the completion of regiments and battalions, as herein provided for, will be organized and mustered into the United States service under

GENERAL ORDERS,	}	HEADQUARTERS OF THE ARMY,
No. 69.		ADJUTANT GENERAL'S OFFICE,
		<i>Washington, June 14, 1898.</i>

The following acts of Congress are published for the information and guidance of all concerned:

I.—An Act to authorize the establishment of post-offices at military posts or camps.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That during the continuance of the existing war the Postmaster-General may, in his discretion, establish a temporary post-office at any military post or camp for the purpose of supplying the officers and troops there encamped with mails, the location of which post-office may at any time be changed to any other post or camp. On the establishment of such post-office he shall cooperate with the Secretary of War or officer commanding such post or camp for the purpose of securing the detail of an officer of the Regular or Volunteer Army of suitable rank to act as postmaster, who shall, when the exigency will permit, execute a bond to the United States as such, and of a sufficient number of noncommissioned officers and privates to act as clerks in said post-office, who shall serve as such without additional salary, pay, or compensation other than that attaching to their rank and position in the Army. Each of said persons shall, before entering upon the

discharge of his duties, take the oath prescribed for persons employed in the postal service. In any case where it is deemed impracticable by the military authorities to detail persons from the Army to act as postmaster or clerks the Postmaster-General is authorized to appoint a civilian as postmaster, and also to make a special order allowing to him reasonable compensation for clerical services and to meet the necessary expenses of said office, as well as a proportionate increase of salary to the postmaster during the period of such extraordinary business as may attach to his office, under the provisions of section thirty-eight hundred and sixty-three, Revised Statutes, payable out of the appropriations for the postal service. He may also provide for the issue and payment of money orders at any post-office established under the provisions of this Act, after the postmaster shall have given bond as required by law.

SEC. 2. That the Postmaster-General shall supply to post-offices referred to in the preceding section all necessary postage stamps, stamped envelopes, postal cards, and other supplies of whatever description. He may also prescribe regulations for the conduct of the business at such post-offices in conformity, so far as the same may be applicable, to the regulations relating to the ordinary postal service.

SEC. 3. That in any case where, in the judgment of the Postmaster-General, any military post or camp can be better and more economically supplied by a branch post-office, he may, without reference to its distance from the main office, establish the same, and meet the expenses thereof by special order, as in the case of post-offices referred to in the preceding section.

Approved, June 6, 1898.

The attention of the Department having been called to the fact that efforts have been made to cause the condemnation of Springfield rifles, caliber .45, because in some cases they require cleaning or slight repairs that can be made in the field, and that many of these arms have had but little service of a kind that could injure their accuracy or firing qualities, the Secretary of War directs that when arms are presented for inspection with a view to condemnation strict attention be paid to paragraph 884 of the Regulations, which prescribes that public property in use will not be reported as unserviceable nor condemned by an inspector merely because worn or shabby in appearance when really strong and serviceable.

By direction of the Secretary of War, the following is published for the information and guidance of officers of the Volunteer Army of the United States in accounting for ordnance and ordnance stores which may in any manner come into their possession, and their careful attention is invited thereto:

All officers of the Army to whom ordnance property is issued or who may otherwise come into possession of such property are required to make quarterly returns thereof to the Chief of Ordnance, U. S. Army, Washington, District of Columbia, on the following dates, each year, viz:

March 31st, June 30th, September 30th, and December 31st.

Should an officer resign or be relieved from command, and transfer his responsibility before any of these dates, he will, in such case, render a closing return showing the transaction for part of the quarter, embracing the period from his last

return to the date of said transfer. The receipt of the officer succeeding him in command for the property on hand will be a voucher to said return.

Property returns should exhibit in detail the transactions that take place during the period for which they are rendered. All stores invoiced to or received by an officer should be entered on the debit side of the return, according to the date of the invoice or other voucher, which should be numbered 1, 2, 3, etc.

Where stores are received without invoices, they are taken up on the return per statement or certificate of the accounting officer, as to how they came into his possession. Stores captured from the enemy, picked up on the march or found in camp are accounted for in the same manner.

Every entry on the face of the return should have a corresponding voucher, whether it be an invoice, certificate, or statement, authenticating the transaction.

All stores disposed of, whether issued, condemned, lost in action, expended, or charged against enlisted men on muster and pay rolls, should, in like manner, be entered on the credit side of the return, vouched for and dropped accordingly.

Before charging an enlisted man with the money value of stores lost or damaged, there should be clear proof of carelessness or neglect on his part. Should the soldier admit the justice of the charge when signing the rolls it will, however, be deemed sufficient warrant for making it, without further proof or inquiry. In all cases where charges are made, a statement thereof should be sent with the return from which the stores are dropped, enumerating the stores charged, giving the names of the enlisted men, amounts charged, date of the rolls, with remarks opposite each name stating how the stores were disposed of, whether lost through neglect, damaged or otherwise.

Stores lost in action should be accounted for by the certificate of the responsible officer, setting forth the date and place of the engagement and the attendant circumstances, and the affidavit of one or more enlisted men cognizant of the facts, to the effect that the loss was unavoidable, having been caused by an attack of the enemy in superior force, which could not be resisted, or like event. In such cases the details of the engagement are given, including the number of killed, wounded, etc.

Stores abandoned for want of transportation must be accounted for by the certificate of the responsible officer as to the facts, supported by the order of the officer directing such action, as also by the certificate of the quartermaster whose duty it was to furnish transportation that it was impossible for him to do so. Such transactions are only allowed upon conclusive proof that the loss sustained was wholly unavoidable.

When stores become unserviceable or unfit for use, they should be submitted for the action of an inspector and disposed of as directed, a copy of the inventory and inspection report being sent with the property returned as a voucher. Surplus serviceable stores can, however, be turned over to the nearest ordnance officer upon order of the department or other commander.

Stores expended, such as ammunition and material used in repairs or completion of arms and accouterments, are dropped from the return on abstract of expenditures signed by the responsible officers.

Where the vouchers exceed the number of lines on the debit or credit side of the return, an abstract should be made, embracing thereon all the transactions and the aggregate of the stores taken up on the return or dropped therefrom accordingly.

To illustrate the method of preparing a quarterly return, a sample copy is appended hereto, showing the transactions likely to occur in a company or other organization. The principle can be applied to any kind of return and will, if adhered to, enable officers to promptly render their returns, thus avoiding delay in the final settlement of their accounts.

Failure to make returns as herein stated will subject officers to stoppage from their pay of the money value of the property issued to them by the United States. All such delinquencies will be promptly reported, in order that the United States may be reimbursed for said property.

BY COMMAND OF MAJOR GENERAL MILES:

H. C. CORBIN,
Adjutant General.

I certify that the foregoing return exhibits a correct state of the ordnance and ordnance stores pertaining to Company A, 1st Alabama Volunteers, in my charge, during the quarter ended June 30, 1898.

I.—The following order of the Secretary of War is published for the information and guidance of all concerned:

The commander of a volunteer regiment will appoint the adjutant and the quartermaster thereof, and will report such appointments, at once, when made, to the Adjutant General of the Army. Such appointments will not be antedated, and the officers appointed will be entitled to the pay pertaining

thereto from the date they assume their duties under such appointment, respectively. Paragraph 233 of the Regulations is modified accordingly in respect to volunteer regiments mustered into the service of the United States.

II.--By direction of the Secretary of War, the following syllabus of the opinion of the Comptroller of the Treasury, relative to extra or special duty pay, is published for the information and guidance of all concerned:

The act of Congress, approved April 26, 1898, increased the pay proper of all enlisted men in war time, and then provided that it should not be further increased by what is known as extra pay for extra or special duty, thus cutting off the extra duty pay of all soldiers, no matter where they may be employed.

The act of May 4, 1898, making an appropriation for extra duty pay for certain enlisted men in the Quartermaster's Department, does not authorize their pay for extra duty in war time, and therefore the appropriation for extra duty pay in said act can not be used for extra or special duty during such time.

After the war ceases, should it cease before the time in which the appropriation shall continue available, to wit: January 1, 1899, it will then, and then only, be available for the payment of extra duty pay for such extra duty as may be performed after the war ceases.

III.--By direction of the Secretary of War, the following paragraph is added to the Army Regulations:

225a. No ensign, pennon, streamer, or other banner of any kind, other than the flags, colors, standards, pennants and guidons prescribed by the Army Regulations, will be used by the Army, or by any regiment or other organization thereof.

46. A division commander may grant leaves for ten days, a corps or department commander for one month, and the Commanding General of the Army for four months; or they may extend to such periods those granted by subordinate commanders. Applications for leaves of more than four months' duration, or from officers of the staff corps and departments for more than one month, or from department commanders desiring leaves of absence to pass beyond the territorial limits of their commands, will be forwarded to the Adjutant General of the Army for the action of the Secretary of War.

879. Officers will prepare and sign in triplicate, on blank forms furnished by the Inspector General of the Army, inventories of public property requiring inspection, and present

them, with the property, to the inspector general or acting inspector general at the time of his annual visit. In the case of property in the field, of rapidly deteriorating subsistence stores or of unserviceable public animals, such inventories will be prepared when necessary, and unless the time of the visit of an inspector be near at hand, one copy will be forwarded to the commander of the department or army corps or division in the field. Public animals will be inventoried singly, with a brief description of color, sex, age, and distinguishing marks.

II.—By direction of the Secretary of War, ordnance officers will issue to the officer in charge of the noncommissioned staff and band, or of company musicians, of volunteer regiments, when they take the field, upon the requisition of such officer, thirty revolvers, which will allow one for each regimental noncommissioned staff officer and one for each member of the regimental band.

GENERAL ORDERS, } HEADQUARTERS OF THE ARMY,
 } ADJUTANT GENERAL'S OFFICE,
 No. 81. } *Washington, June 27, 1898.*

By direction of the Secretary of War, the following instructions relating to the inspection service of the armies in the field are published for the information and guidance of all concerned:

1. Inspecting officers, selected when practicable, from the Inspectors General of the Regular or Volunteer Army, are assigned by the War Department to the headquarters of geographical departments, and to the headquarters of armies and army corps, in the field, and by the commanding generals thereof, to divisions.

In the absence of such assignment, and to fill temporary vacancies, commanding generals of armies, army corps, divisions, and geographical departments may detail officers from their commands for such duty, reporting their action to the Adjutant General of the Army for the information of the War Department, subsequently to be transmitted to the Inspector General of the Army for record.

2. In order to discharge his duties efficiently, an inspector should make himself familiar with everything relating to the different branches of service within the scope of his investigations. Industrious attention must therefore be given by him to the study of the regulations and laws for the government of the army, the systems of instruction, and the general principles of the military profession. The sphere of inquiry of an inspector includes every branch of military affairs except when specially limited in orders, or by the Army Regulations.

3. Upon arriving at his station an inspector general, or acting inspector general, will report to the commanding general in person and by letter to the Adjutant General of the Army, and thereafter will report to him monthly the inspections and investigations made by him; to this end he will keep a record of the various services performed and the dates thereof. The attention of inspectors is especially called to Articles LVII, LVIII, LXXII, Army Regulations.

4. An inspector general or acting inspector general will make known his orders or instructions to commanding, or

other officers, whose troops and affairs he is directed to inspect, and these officers will see that every facility and assistance, including clerical aid and the use of an orderly, are provided if requested. If ordered to investigate accusations prejudicial to the character of an officer, he will make known their nature to the officer and give him an opportunity to make his own statement in writing, which he will append to his report. Harmony as well as justice to the individual and the public require that such reports be maintained inviolably confidential and that they should not of themselves be made the basis of official proceedings. In the investigation of misconduct or attempt to defraud the Government on the part of any officer or agent of the United States, the inspector is authorized to administer oaths to witnesses. Inspection reports of troops, of disbursements, money accounts, and un-serviceable property will be rendered on the prescribed forms and will be *submitted to the officer ordering the inspection.*

5. An inspector general or acting inspector general will not give orders unless specially authorized to do so, and then only in the name of the superior giving such authority. He will report with strict impartiality all irregularities coming under his notice, as well as the remedies applied to correct them, and will refrain from informal conversation or comment upon subjects of inspection or investigation. When in the course of an inspection, an inspector obtains confidential information respecting matters affecting the public service, he will communicate such information in an oral or written special report.

6. All nonconfidential inspection reports will be forwarded through regular channels to the Adjutant General of the Army, for transmittal to the Inspector General of the Army. When irregularities, deficiencies, or misconduct are reported, the several commanders will state, in forwarding the reports, what remedies have been or will be applied to correct them.

7. Inspectors will make written memoranda on the spot of every defect, irregularity, or neglect, observed during their inspections; also any particular excellence which may strike their attention.

INSPECTION OF TROOPS.

8. Inspections of troops will be conducted as prescribed in the authorized drill regulations, and when the command consists of more than one company, will be preceded by a review when practicable.

All officers and enlisted men, except the guard, the sick, and one cook per company, will be present at inspection under arms.

The inspector will ascertain and report whether there be any officers or enlisted men in excess of the prescribed organizations; absentees will be accounted for and the precise status of all officers stated; he will critically observe and report upon the military bearing and appearance of the troops and their discipline; whether regularly mustered and paid and the date of last payment; whether parades, guard-mounting, and roll calls are in proper form; whether company, battalion, and regimental inspections are frequently and regularly made, and by whom; the condition of the arms, accouterments, field equipments, and uniforms; the gun carriages, implements, equipments of batteries; of riding equipments and harness, and whether well fitted; of horses, whether well treated, shod, and cared for, and free from disease; whether troops are fully equipped for field service, and blanket bags uniformly and properly packed; the police of tents, grounds, kitchens, and sinks; whether camps are well located, properly drained, and thoroughly policed; the condition of the water supply; the composition and instruction of camp guards, and number of prisoners; whether the troops are proficient in the different drills, advance guard, and outpost; in target practice, signaling, pitching shelter tents, first aid to the injured, and whether every officer and enlisted man has a first-aid packet; whether the required books, records, and reports are kept and rendered, and company and all public funds legitimately expended and accounted for; whether the transportation, including ambulances, stretchers, and travois, the quartermaster's, commissary's, medical, and ordnance supplies are sufficient and in good condition; the police and capacity of the hospital; number of sick and wounded, and whether they receive proper attention; the prevalence of epidemic or other

diseases; whether all officers are zealous and intelligent, reporting any who are addicted to intemperance and gambling, or who frequent low company, or are incapacitated in any way for active service.

9. In the inspection of heavy artillery the inspector will report whether the batteries are assigned to guns; whether the guns, carriages, appliances, ammunition, platforms, magazines, parapets, etc., are preserved in good order; whether magazines are frequently aired, and the means prescribed for locating objects and the control of the fire are in good working order.

10. In the inspection of cavalry, the inspector will classify cavalry horses thus:

a. Those to be condemned as unfit for any use whatever in any branch of the service. These will be disposed of according to Army Regulations.

b. Those unfit for cavalry service but fit for team or draft horses. These will be turned into the Quartermaster's Department.

c. Those unfit for service but susceptible of recuperation by timely treatment.

d. Serviceable horses.

The number of each class will be given in every report of inspection.

11. Bearing in mind the specialties of each arm, the inspector will test the infantry and cavalry in making an attack, over a distance of at least 1,000 to 1,500 yards, against an enemy, either indicated or represented; in the proper disposition of advance and rear guards, on the march, at a halt, and when attacked; in the formation of an outpost according to the cordon or group system, or both.

In the inspection of field batteries they should be required to advance rapidly, and take up a position to attack or defend some point; the inspector will note whether the batteries are properly subdivided for marching and action, and whether the reserve, train, etc., are judiciously located. Similarly in the inspection of the heavy artillery, the entire garrison should be disposed for battle, a squadron of the enemy will be assumed, the leading ship being represented by some vessel approaching or leaving the harbor; skill in aiming, the

efficiency of fire control, supply of ammunition, and all the appliances of the defense will be tested, the object of this and the other inspections of troops being to determine the degree of their preparation for active service.

These exercises being of paramount importance will have precedence over the drills when time is pressing.

In the inspection of permanent posts and garrisons the scope of the inspection and report will conform to the requirements of prescribed memoranda and the Army Regulations covering that subject.

INSPECTION OF ADMINISTRATION, DISBURSEMENTS, AND ACCOUNTS.

12. In making these inspections the inspector will inquire as to the necessity, economy, and propriety of all disbursements, their strict conformity to the law appropriating the money, and whether the disbursing officers comply with the law and regulations in keeping the public funds, their accounts and making their disbursements and deposits. The disbursing officer will prepare a statement of his accounts on Form 3, Inspector General's Department, together with a list of outstanding checks, Form 3a. The inspector will verify the statement from the cashbook, treasury receipts, vouchers, etc., and compare the vouchers with the check stubs and depository statements, and will count the cash on hand. It will be observed whether or not disbursing officers are familiar with their duties, and are prompt, accurate, and courteous in conducting their business; whether issues and payments are made strictly in compliance with law, and whether any unauthorized funds are kept. Persons employed and things hired will be seen as far as practicable and the necessity for their employment and hire established.

INSPECTION OF PROPERTY FOR CONDEMNATION.

13. This duty will be performed by inspectors general or acting inspectors general, assisted when necessary by such officers as may be specially detailed for the purpose. The attention of inspectors is directed to paragraphs 878-889, Army Regulations, which will govern in making these inspections. Whenever a want of proper care in the preservation of Government property comes to the knowledge of the inspector,

he will report the fact. All reports of inspection of property will be submitted by the inspector through his immediate commander to the officer empowered to order final disposition of the property.

Inspectors will state in their reports of damaged or inferior quartermaster, commissary, or medical stores, the source from which they were obtained, and, when practicable, the names of the officers or inspectors who furnished and passed the articles so reported.

The necessary blank forms, which have the force and effect of Army Regulations, will be furnished by the Inspector General of the Army.

BY COMMAND OF MAJOR GENERAL MILES:

H. C. CORBIN,
Adjutant General.

GENERAL ORDERS,	}	HEADQUARTERS OF THE ARMY,
		ADJUTANT GENERAL'S OFFICE,
No. 82.		<i>Washington, June 27, 1898.</i>

I.—By direction of the Secretary of War, the attention of Commanding Generals of Army Corps in the field is directed to the fact that the act of Congress approved June 2, 1898 (General Orders, No. 62, June 3, 1898, from this office), fixes the number of hospital stewards, Hospital Corps, U. S. Army, at two hundred (200), and that owing to the number of hospital stewards now on duty outside of the limits of the Army Corps in the field, ten (10) only will be available for duty with each Army Corps, which number under the law can not be exceeded.

It is important that it should be fully understood that the hospital stewards mustered in with each volunteer regiment can be detached from their regiments and assigned to duty at the discretion of the Commanding Generals of Army Corps.

II.—By direction of the Secretary of War, the following is published to the Army for the information and guidance of all concerned:

During the existing war the commanding officers of engineer companies, who are serving with their companies, away from the headquarters of the Battalion of Regular Engineers, are authorized to appoint sergeants, corporals, and first-class privates of their companies, and, when necessary, to reduce such enlisted men to the lower grades. This authority, how-

ever, will not affect the status of enlisted men who are not serving with these companies.

Noncommissioned officers of permanent independent volunteer batteries or companies will be appointed by the commanding officers thereof and will be furnished with a certificate of rank signed by the battery or company commander. When these organizations are independent only temporarily, the commanding officer will make temporary appointments of noncommissioned officers and the permanent appointments will be made in the regular way when they are formed into regiments.

III.—By direction of the Secretary of War, men who are sick in the division or brigade hospitals of their command, at date of muster, will be mustered on the muster rolls and the pay rolls of the organization to which they belong as “present,” with the remark “sick in division or brigade hospital.” If the organization to which they belong be detached from the corps, division, or brigade, they will be mustered on detachment rolls (Form No. 2), a separate roll being prepared for each regiment. See Note 1 on the rolls and A. R. 785, the provisions of which must be strictly observed.

IV.—The following decision is published to the Army for the information of all concerned:

COLORS AND STANDARDS.—It being found impracticable to embroider the colors and standards for the several volunteer organizations, as required by paragraphs 215, 216, 217, and 218, Army Regulations, so as to be available at an early period, the colors and standards shall be inscribed either in gold or painted in imitation of embroidery.

Adjutant General.

GENERAL ORDERS,	}	HEADQUARTERS OF THE ARMY,
No. 83.		ADJUTANT GENERAL'S OFFICE,
		<i>Washington, June 28, 1898.</i>

The following proclamation of the President of the United States is published for the information and guidance of all concerned:

By the President of the United States.

A PROCLAMATION.

Whereas an act of Congress was approved on the twenty-fifth day of April, 1898, entitled "An act declaring that war exists between the United States of America and the Kingdom of Spain," and

Whereas, by an act of Congress entitled "An act to provide for temporarily increasing the military establishment of the United States in time of war, and for other purposes," approved April 22, 1898, the President is authorized, in order to raise a volunteer army, to issue his proclamation calling for volunteers to serve in the Army of the United States:

Now, therefore, I, WILLIAM McKINLEY, President of the United States, by virtue of the power vested in me by the Constitution and the laws, and deeming sufficient occasion to exist, have thought fit to call forth and hereby do call forth, volunteers to the aggregate number of 75,000 in addition to the volunteers called forth by my proclamation of the twenty-third of April, in the present year; the same to be apportioned, as far as practicable, among the several States and Territories and the District of Columbia, according to population, and to serve for two years, unless sooner discharged. The proportion of each arm and the details of enlistment and organization will be made known through the War Department.

In witness whereof I have hereunto set my hand and caused the seal of the United States to be affixed.

Done at the City of Washington, this twenty-fifth day of May, in the year of our [SEAL.] Lord one thousand eight hundred and ninety-eight, and of the independence of the United States the one hundred and twenty-second.

WILLIAM McKINLEY.

By the President:

WILLIAM R. DAY,
Secretary of State.

BY COMMAND OF MAJOR GENERAL MILES:

H. C. CORBIN,
Adjutant General.

GENERAL ORDERS,	}	HEADQUARTERS OF THE ARMY,
No. 84.		ADJUTANT GENERAL'S OFFICE,
		<i>Washington, June 29, 1898.</i>

1. With the approval of the Secretary of War, an expenditure of not to exceed ten rounds of ammunition per month for each officer and enlisted man is hereby authorized. In the training of volunteer troops, great attention will be given to company, battalion, regimental and brigade drill and exercises, especially to such formations and movements as will render the men rapidly efficient for attack and defense, marching in line of battle, by the flank, changes of front, plying

and deploying, and picket and outpost duty. Especial instructions will be given officers and men in connection with the formation and use of advance and rear guards, as well as in the necessary precautions to be taken to guard against surprises and ambuscades, and the use of flankers and flanking detachments and columns for bodies of troops operating in the presence of the enemy. Officers and men will also be instructed in the General Rules for Fire Discipline, commencing at paragraph 534, Infantry Drill Regulations.

2. It should be borne in mind that the object of all military instruction and drill is to teach officers and enlisted men, individually and as organizations, as quickly as possible, the best methods of defeating the enemy with the least sacrifice of the lives of our men. In order to insure this result, the effective use of firearms in battle is necessary, and the rapid and thorough instruction of men in the use of their arms should in every possible way be expedited.

3. The instruction of volunteer troops and recruits which has been previously ordered by corps, division, and brigade commanders, will include aiming, position drill, and target practice. Regimental schools of instruction for officers, under the personal direction of regimental commanders, and schools of instruction for noncommissioned officers and intelligent privates, directly under the supervision of company commanders, will be held not less than twice a week. Special inspections will be made by competent officers to determine the number of men in all organizations who have not had practice with their rifles, and such men as have not had this practice will be so instructed without delay. Blank ammunition should be procured for preliminary firing; but where this can not be obtained, actual practice with ball cartridges will be carried out at once, if it can be done with perfect safety to everybody in and out of the Army. Frequent inspections will be made to insure the carrying out of these instructions, the results of such inspections to be duly reported; and when for any reason other than campaigning these instructions have not been fully carried out, a special report will be made giving the reason therefor, which report will be transmitted by corps commanders to these Headquarters. The attention of inspectors general is directed to the carrying out of these instructions.

4. The Ordnance Department is not prepared to furnish to so large an army as the present one all the necessary material

for target practice, such as frames, markers, etc. It is thought, however, that these can be improvised, while the Ordnance Department can furnish, on requisition, paper targets that are ordinarily used for this purpose. At permanent camps where an officer can be detailed in charge of rifle practice, it will be practicable to furnish all the frames and other material required, although this can not be done generally, and it will be the exception and not the rule.

BY COMMAND OF MAJOR GENERAL MILES:

H. C. CORBIN,
Adjutant General.

GENERAL ORDERS,	}	HEADQUARTERS OF THE ARMY,

Mex.; Nashville, Tenn.; Louisville, Ky.; St. Louis, Mo., and Little Rock, Ark., to which points recruiting officers will be assigned by the regiment commander. Recruits for the regiment will be examined by the surgeons attached to United States Recruiting Offices, if there are any at any of the points above named, or by the surgeon or an assistant surgeon of the regiment or

by a local physician, under the provisions of General Orders, No. 71, June 17, 1898, from this office.

The rendezvous for the regiment is established at Jefferson Barracks, Mo.

Lieutenant Colonel *Eugene J. Spencer* will proceed from St. Louis, Mo., to Louisville, Ky., and return; Major *Edgar Jadwin* from Washington, D. C., to Little Rock, Ark.; Austin, Tex.; Albuquerque, N. Mex., and Jefferson Barracks, Mo.; Major *Henry C. Davis* from Washington, D. C., to Mobile, Ala.; New Orleans, La.; Nashville, Tenn., and Jefferson Barracks, Mo.; and Major *Willoughby Walke* from Washington, D. C., to Richmond, Va., Charlotte, N. C., Savannah, Ga., and Jefferson Barracks, Mo., all on duty in connection with the recruitment of the regiment under instructions from the regimental commander.

Recruits who have passed medical examination will be forwarded in detachments to Jefferson Barracks, Mo., at which point they will be mustered into the United States service as rapidly as companies are organized.

The recruiting officers above named will also act as Quartermasters and Commissaries for the purpose of subsisting the recruits from the time of their enrollment to the time of rendezvous, and for their transportation from the place of enrollment to the place of rendezvous.

1st Lieutenant *Ralph Harrison*, 2d Cavalry, is hereby detailed as mustering officer for the regiment.

The travel enjoined is necessary for the public service.

H. C. CORBIN,
Adjutant General.

GENERAL ORDERS,	}	HEADQUARTERS OF THE ARMY,
		ADJUTANT GENERAL'S OFFICE,
No. 86.		<i>Washington, July 2, 1898.</i>

I..In section 7 of the Act "For the better organization of the line of the Army of the United States," approved April 26, 1898, it is provided "That in time of war every officer serving with troops operating against an enemy who shall exercise, under assignment in orders issued by competent authority, a command above that pertaining to his grade, shall be entitled

to receive the pay and allowances of the grade appropriate to the command so exercised."

The Attorney General has held that this clause "was intended to apply to all instances where the troops of the United States are assembled in separate bodies, such as regiments, brigades, divisions, or corps, for the purpose of carrying on and bringing to a conclusion the war with Spain;" but that "all service in the Army at the present time is not to be considered as operating against an enemy. Troops and their officers on the western frontiers, performing the same service as garrisons which is requisite in time of peace, and in nowise considered a part of the Army assembled to carry on the war with Spain, would not be within the meaning of the Act."

To entitle an officer to the pay of a grade above that actually held by him, the assignment in orders under the clause cited must be by the written order of the commanding general in the field or the Secretary of War, and no pay or allowances of a higher grade than that actually held by an officer will be paid under this provision except when a certified copy, in duplicate, of such order with statement of service is filed with the paymaster.

II.. Commanding officers of volunteer regiments, independent battalions and batteries of heavy artillery, squadrons and light batteries will furnish to the Adjutants General of their respective States a monthly return, prepared on Form No. 23, A. G. O., February 11, 1897.

BY COMMAND OF MAJOR GENERAL MILES:

H. C. CORBIN,
Adjutant General.

GENERAL ORDERS,	}	HEADQUARTERS OF THE ARMY,
No. 87.		ADJUTANT GENERAL'S OFFICE,
		<i>Washington, July 2, 1898.</i>

I.. The Army is engaged in active service under climatic conditions which it has not before experienced.

In order that it may perform its most difficult and laborious duties with the least practicable loss from sickness, the utmost care consistent with prompt and efficient service must be exercised by all, especially by officers.

The history of other armies has demonstrated that in a hot climate abstinence from the use of intoxicating drink is essential to continued health and efficiency.

Commanding officers of all grades and officers of the medical staff will carefully note the effect of the use of such light beverages—wines and beer—as are permitted to be sold at the post and camp exchanges, and the commanders of all independent commands are enjoined to restrict, or to entirely prohibit, the sale of such beverages, if the welfare of the troops or the interests of the service require such action.

In this most important hour of the Nation's history it is due the Government from all those in its service that they should not only render the most earnest efforts for its honor and welfare, but that their full physical and intellectual force should be given to their public duties, uncontaminated by any indulgences that shall dim, stultify, weaken or impair their faculties and strength in any particular.

Officers of every grade, by example as well as by authority, will contribute to the enforcement of the order.

II.—With a view to avoid extreme suffering among wounded horses or mules on the field of battle, it is hereby ordered that a veterinary surgeon, or some other person detailed by the commanding officer, will accompany troops in an engagement, whose duty it will be to put an end to the agonies of all horses or mules that in his judgment are suffering to a degree requiring such action on his part.

Adjutant General.

White brassards, issued to privates of the Hospital Corps, will be charged at cost price.

The insignia for first-class gunners as well as service chevrons (peace or war) are issued without charge.

Overcoats made of fur or other suitable warm material will be issued and accounted for in the manner prescribed by Par. 1191 of the Regulations.

Chief musicians have the same allowance of clothing as Quartermaster Sergeants. (See Section 1279 of the Revised Statutes.)

Post Quartermaster Sergeants have the same allowance as Ordnance Sergeants. (Act of Congress approved July 5, 1894.)

Hospital Stewards have the same allowance as Ordnance Sergeants. (Act of Congress approved March 1, 1887.)

Acting Hospital Stewards and privates of the Hospital Corps have the same allowance as a corporal of the arm of service with which on duty. (Act of Congress approved March 1, 1887.)

Indians employed as scouts, while in service, will receive the pay and allowances of Cavalry soldiers. (Par. 481 of the Regulations.)

The money allowance for clothing for the first year of each enlistment is allotted by half years, and the allowance for the second, third, fourth, and fifth years enlistment should be divided by two to obtain the semiannual allowance. There is no monthly allowance. The money-allowance tables give the daily proportion, estimating 365 days to the year, which should be used only for fractional periods less than the half year.

Each enlisted man is allowed, for the first year of every enlistment, the sum of five dollars for the purpose of having his clothing altered and fitted to his person. This sum is included in the first six months of the first year's allowance as published in the accompanying tables.

The annual money allowance of band sergeants and band musicians (authorized by Par. 245 of the Regulations) will be the same as that for company sergeants and privates of the respective arms from which they are detailed, and such articles of band uniforms, including music pouches, as do not form part of their annual clothing allowance to which they are authorized, may be issued, but not charged to them, except in case of loss or damage. The articles thus issued without charge will, however, remain the property of the United States.

A soldier may, when necessary, be relieved from ordinary military duty to make, repair, or alter uniforms. The post council will fix the rates to be charged, which will not exceed the cost of doing such work at the clothing depot, and company commanders will cause to be deducted from the pay of enlisted men and turned over to the proper party the amount properly due therefor. (Par. 263 of the Regulations.)

Enlisted men who, upon their enlistment, are furnished with overcoats having different cape linings than the arm of service to which they are finally assigned, will be furnished, without cost, with new linings, and the sum of \$1 each for inserting said linings will be defrayed by the Quartermaster's Department upon receipt of estimate of funds.

In no case should the Quartermaster's Department be put to the expense of changing any part of the uniform by reason of *voluntary* transfer of men from one arm of the service to another.

The gratuitous issue of one cord and tassel with each campaign hat drawn by the enlisted men of the Army is authorized until the stock of those now on hand at posts or at the general depots of the Quartermaster's Department shall have become exhausted. (Decision Sec. War, Feb. 25, 1887.)

The issue of overcoat capes to enlisted men, separately from the overcoat, is not authorized. (Decision Sec. War. Letter Dec. 3, 1885.)

Basis for computing cost of allowance of China and Glassware, under G. O. No. 7, A. G. O., 1895, and Circular No. 3, A. G. O., of 1895.

From 60 to 65 men's quota no allowance is made for increase, except for vegetable dishes.

The method of computing the allowance is as follows for a quarter :

For 60 men, 5 per cent of annual allowance of china and glassware, including individual and general articles.

For 70 men the allowance is that for 60 men plus $\frac{1}{3}$, with addition of—

- 1 meat plate ;
- 1 water pitcher ;
- 6 vegetable dishes ;
- 2 saltcellars ;
- 2 pepper boxes ;
- 2 sirup pitchers ;
- 1 pickle dish ;
- 2 sugar bowls ;
- 2 gravy boats ;
- 2 mustard pots.

For any increase over 65 men no allowance is provided for except that stated in Circular 3, viz: "proportionate increase according to strength of organization." In this connection the tables of allowance are based on current General Orders, which provide for increase of enlisted strength of organizations.

The maximum authorized strength is taken as the basis on which to compute allowance.

Especial attention is invited to provisions of Par. II, General Orders 51, A. G. O., 1896.

GENERAL ORDERS,	}	HEADQUARTERS OF THE ARMY,
		ADJUTANT GENERAL'S OFFICE,
No. 89.		<i>Washington, July 6, 1898.</i>

The following letter from the Postmaster General, regarding the establishment of a more complete system for the military mail service, is published for the information and guidance of all concerned, and the suggestions contained therein are approved by the Secretary of War:

OFFICE OF THE POSTMASTER GENERAL,
Washington, D. C., June 25, 1898.

The Honorable THE SECRETARY OF WAR.

SIR: With the movement of troops and the establishment of camps or places of rendezvous in the existing war, the Post-Office Department made such immediate arrangements for the postal service in connection therewith as the exigencies required and permitted.

As soon as practicable after the opening of hostilities, Congress was asked by this Department to pass an Act making such special provision and conferring such authority as the emergency demanded, and Congress accordingly passed a Bill entitled

"An Act to Authorize the Establishment of Post Offices at Military Posts or Camps,"
a copy of which I have the honor to enclose herewith.

Pursuant to this Act, I beg to invite your co-operation in the establishment of a more complete system for the military mail service, and suggest the following general plan:

1. The Postmaster General shall establish a post office or branch post office at every military post or camp, which has been, or may be, created during the existing war.

2. Such post office or branch post office shall be under the immediate charge and direction of an official of the postal service detailed for that purpose by the Postmaster General, and who shall be designated as "Postal Superintendent in Charge,"

3. The Secretary of War shall provide for the designation of an officer of the regular or volunteer Army attached to the general headquarters of the camp, who shall represent the military organization in its relations to the postal service, and whose duty it shall be to keep the Postal Superintendent in charge advised of the movement of troops to and from the camp.

4. The regimental mail service shall be in charge of the adjutants of regiments, who shall be held responsible for the collection and distribution of the mail within the several companies. Such detail of noncommissioned officers and privates shall be made as may be necessary for this purpose. Such persons, before entering upon the discharge of their duties, shall take the oath prescribed for persons employed in the postal service, and shall serve without additional salary, pay, or compensation other than that attaching to their rank and position in the Army.

5. The Post-Office Department will arrange to separate incoming Army mail by headquarters, by regiments and, so far as possible, by companies, and deliver such mail properly sacked or pouched at such point as shall be most convenient for its transfer to the military detail, where under the direction of the War Department it shall be received by the Quartermaster's Department, and through that department delivered to the respective general and regimental headquarters.

6. The Quartermaster's Department shall also collect from the general and regimental headquarters outgoing mail to be in turn delivered to the employees of the Post-Office Department at the point of departure.

7. The Post-Office Department will detail for each camp an expert money-order clerk, who will give requisite bonds and be fully supplied from time to time with postage stamps, stamped envelopes, postal cards, and other supplies and blanks of whatever description. Applications for money orders within the regiments could be made out and, with the money accompanying, could be grouped and sent by a properly authorized person to the money-order clerk at headquarters, who would issue regular money orders therefor and return them through the same channel.

8. For the more complete efficiency of this system, the Postmaster General will, whenever necessary, designate a Post-Office Inspector, or an officer or employee of the railway mail service, to be associated with the postal superintendent in charge at any camp to aid in the installation or operation of the military mail service.

9. Whenever any military expedition shall be made, the Postmaster General will detail a sufficient force of trained employees of the postal service to accompany it, and organize the same system of military mail service at any camp that may be established.

Under the system thus outlined the Post-Office Department would keep the supervision and management of the mails; the Quartermaster's Department would undertake their transportation within the camp to and from the point of departure and arrival; and the adjutants would be responsible for the regimental and company collection and distribution.

If this plan meets your approval, I beg to ask that you will issue the necessary orders for its full and effective operation so far as it depends on the War Department and the military organization.

Very respectfully,
CHAS. EMORY SMITH,
Postmaster General.

BY COMMAND OF MAJOR GENERAL MILES:

H. C. CORBIN,
Adjutant General.

Under the Act "To provide for temporarily increasing the military establishment of the United States in time of war," approved April 22, 1898, the age limits for soldiers of the national forces are fixed at eighteen and forty-five years. Persons not less than eighteen nor more than forty-five years of age enlisting in the Volunteer Army, and possessing the other qualifications mentioned in the Act, are legally enlisted. Upon application to the Secretary of War and satisfactory proof that any volunteer soldier is under the age of eighteen, he will be at once discharged. Minors over eighteen years of age are not entitled to discharge, but meritorious cases will be considered. All applications for discharge must be made through military channels to the Secretary of War.

Attention is called to paragraphs 970 and 971, Army Regulations, and to paragraph 827 of the Regulations, which is as follows:

827. Recruiting officers will be held to a rigid accountability for the enlistment of men who may be found unfitted for the service. If a recruit, after having been enlisted, be rejected, or discharged as a minor, and it appear that the enlistment was carelessly made or in violation of these regulations, the expenses incurred in consequence of the enlistment may be stopped against the pay of the officer responsible.

Adjutant General.

GENERAL ORDERS, } HEADQUARTERS OF THE ARMY,
 No. 91. } ADJUTANT GENERAL'S OFFICE,
 Washington, July 8, 1898.

By direction of the Secretary of War, paragraphs 878, 882, and 888 of the Regulations are amended to read as follows:

878. Inspections having in view the condemnation of property will be made by inspectors-general, acting inspectors-general, or officers specially designated by the commander of a department, the commander of an army corps, or army in the field, or higher authority. Officers designated for the foregoing purpose shall not be in any way connected with the staff department or corps, the post, or particular organization to which the property to be inspected pertains, except in case of unserviceable public animals or of small quantities of rapidly deteriorating subsistence stores, unfit for sale or issue to troops, but not worthless, if delay would entail loss to the Government.

882. Inspectors will examine all property properly presented for condemnation. When all property presented has been destroyed in the presence of the inspector, one inventory will be forwarded by the inspecting officer through department or army corps headquarters to the Inspector General of the Army and the others will be delivered to the accountable officer. In cases in which the inspector recommends the sale of any property or its transfer to depots, he will forward all the inventories to department or army corps headquarters, and if the inspector's action is approved by the department or army corps commander, except as provided in paragraphs 1525 and 1526, two will be returned to the accountable officer and the other forwarded to the Adjutant General of the Army to be transmitted to the Inspector General of the Army, and, in similar cases, when the accountable officer is not serving under the department or army corps commander and all the property has been destroyed in the presence of the inspector, one copy of the inventory will be forwarded to the Inspector General of the Army and two to the accountable officer, or if sale or transfer of the property is recommended, the inspecting officer will forward all the inventories to the Inspector General of the Army, who will forward them to the Secretary of War, through the chief of bureau concerned; one copy will be

returned to the Inspector General and two to the accountable officer.

888. Department commanders, the commander of an army corps, or army in the field, or the Commanding General of the Army, may give orders, on the reports of authorized inspectors, to sell, destroy, or make such other disposition of condemned property as the case may require, except the sale of ordnance and ordnance stores and the destruction of saddles issued by the Ordnance Department, for which the orders of the Secretary of War must be given. If the property be of considerable value, and there be good reason to suppose that it can be more advantageously applied or disposed of elsewhere than within the command, the matter will be referred to the War Department through the Adjutant General of the Army.

The following address of the President of the United States is published for the information and guidance of all concerned:

The President's Address to the People for Thanksgiving and Prayer.

TO THE PEOPLE OF THE UNITED STATES OF AMERICA:

At this time when to the yet fresh remembrance of the unprecedented success which attended the operations of the United States fleet in the Bay of Manila on the first day of May last, are added the tidings of the no less glorious achievements of the naval and military arms of our beloved country at Santiago de Cuba, it is fitting that we should pause, and staying the feeling of exultation that too naturally attends great deeds wrought by our countrymen in our country's cause, should reverently bow before the throne of divine grace and give devout praise to God who holdeth the nations in the hollow of His hands and worketh upon them the marvels of His high will, and who has thus far vouchsafed to us the light of His face and led our brave soldiers and seamen to victory.

I therefore ask the people of the United States, upon next assembling for divine worship in their respective places of meeting, to offer thanksgiving to Almighty God who, in His inscrutable ways, now leading our hosts upon the waters to unsathed triumph; now guiding them in a strange land through the dread shadows.

of death to success, even though at a fearful cost ; now bearing them without accident or loss to far distant climes, has watched over our cause and brought nearer the success of the right and the attainment of just and honorable peace.

With the Nation's thanks let there be mingled the Nation's prayers that our gallant sons may be shielded from harm alike on the battlefield and in the clash of fleets and be spared the scourge of suffering and disease while they are striving to uphold their country's honor ; and withal let the Nation's heart be stilled with holy awe at the thought of the noble men who have perished as heroes die, and be filled with compassionate sympathy for all those who suffer bereavement or endure sickness, wounds, and bonds by reason of the awful struggle. And above all, let us pray with earnest fervor, that He, the Dispenser of all good, may speedily remove from us the untold afflictions of war and bring to our dear land the blessings of restored peace, and to all the domain now ravaged by the cruel strife the priceless boon of security and tranquillity.

I..The following act of Congress is published for the information and guidance of all concerned:

An Act directing the enlistment of cooks in the Regular and Volunteer armies of the United States.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Secretary of War be, and he is hereby, authorized and directed to cause to be enlisted in each company, battery, and troop in the Regular and Volunteer armies of the United States, as a part of the authorized enlisted strength thereof, under rules to be prescribed by him, a competent person as cook, who shall take rank as and be allowed the pay of a corporal of the arm of the service to which he belongs, and whose duties in connection with the preparation and serving of the food of the enlisted men of the company, battery, or troop, and with the supervision and instruction of enlisted men hereby authorized to be detailed to assist him, shall be prescribed in the regulations for the government of the Army.

Approved, July 7, 1898.

II..The following instructions are published to govern the enlistment of army cooks, under the provisions of the act of Congress approved July 7, 1898:

1. A candidate for enlistment as cook will be first subjected to the required medical examination, and when found qualified for enlistment, both as regards his physical condition and his general character, the recruiting officer will examine him thoroughly as to his knowledge of methods and his skill in caring for, preparing, and serving food, particularly as to the amount of experience he has had in cooking for large bodies of men. The candidate will then be required to give a practical exhibition of his ability to cook, and for this purpose articles of the ration, in suitable amounts, will be issued to the recruiting officer by the nearest commissary upon requisitions signed by the recruiting officer. No candidate will be enlisted as a cook unless the recruiting officer be fully satisfied that he is competent to perform the duties required of him; and in the case of every person thus enlisted his enlistment paper will be plainly indorsed, "Enlisted as a cook." Men thus enlisted will be accounted for as cooks in the tables on the second and third folds of the trimonthly reports of the recruiting service.

2. The commanding officer of a regiment or other organization, in either the Regular or the Volunteer Army, is authorized to cause the enlistment of one competent cook for each company, troop or battery of his command. Such enlistments will be made, whenever practicable, by the recruiting (or mustering) officer authorized by existing orders and instructions to recruit for the command. Men thus enlisted will be included in the authorized maximum enlisted strength of their companies, troops or batteries.

3. General-service recruiting officers of the Regular Army, in addition to making enlistments of cooks for their own regiments upon the request of the commanding officers thereof, will, whenever practicable, enlist as cooks for general assignment men possessing the requisite qualifications and report them to the Adjutant General of the Army for assignment to companies, troops or batteries needing their services.

4. Mustering officers who are authorized to make enlistments *in the field* for volunteer organizations already mustered into the service of the United States (Section II, Circular Letter, Adjutant General's Office, June 3, 1898) may make enlistments of competent cooks to fill actual vacancies in such

organizations, with the approval of the department, corps, division or district commander; and they will be guided in making such enlistments by the instructions prescribed in this order to govern recruiting officers.

5. The commanding general of a department or corps may, when found necessary, authorize officers detailed from his command to recruit for one volunteer organization serving therein, to make enlistments of cooks to fill actual vacancies in other volunteer organizations of his command. Department and corps commanders may, at the request of commanding officers concerned, transfer cooks from one organization to another within their respective commands, for the purpose of preventing a surplus in one organization and of filling vacancies in another.

6. An enlisted man already in service and desiring to serve as a cook may be appointed and rated as such upon his own application, if in the opinion of his immediate commanding officer, as the result of a practical test, he is sufficiently proficient. Such appointments will be made in the same manner as those of company noncommissioned officers.

7. Only *one* cook is authorized by law for each company, troop or battery, and every care must be exercised by commanding officers, through communication with their recruiting officers and with department or corps headquarters, to prevent exceeding this allowance. Should there be an excess of cooks, from any cause, in an organization, the fact will be at once reported to the department or corps commander, with a view to the transfer of the surplus cooks to other organizations in which there may be vacancies therefor.

8. Cooks will be duly accounted for *as such* on all muster rolls and returns. The number required by an organization beyond the power of its own officers to supply will be reported to the proper department or corps commander, who will report such vacancies as can not be filled under his orders to the Adjutant General of the Army.

9. The commanding officer of each company, troop or battery will supervise the cooking and messing of his men; will see that at least two copies of the Manual for Army Cooks are provided for his command, and that suitable men in sufficient numbers are regularly detailed as assistants to the cook and are fully instructed by the latter in managing, cooking and

serving the ration in the field; also that necessary utensils in serviceable condition are always on hand, together with the field mess furniture for each man.

10. Each cook will be required to attend such drills and exercises as will qualify him for the performance of the duty of a soldier under arms when necessity requires.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Secretary of the Treasury be, and he is hereby, directed, out of any money in the Treasury not otherwise appropriated, to pay to the governor of any State or Territory, or to his duly authorized agents, the reasonable costs, charges, and expenses

WAR DEPARTMENT,
ADJUTANT GENERAL'S OFFICE,
Washington, July 15, 1898.

I. The following decision as to the status of certain officers of the Volunteer Army is published for the information of all concerned:

Section 6 of the act of Congress approved April 22, 1898, "To provide for temporarily increasing the military establishment of the United States in time of war, and for other purposes," provides "That the Volunteer Army and the militia of the States when called into the service of the United States shall be organized under and shall be subject to the laws, orders, and regulations governing the Regular Army," but provides that when the members of a State militia organization shall enlist in the Volunteer Army in a body, the "*officers in service with the militia organization* thus enlisting may be appointed by the governors of the States and Territories, and shall when so appointed be officers of corresponding grades in the same organization when it shall have been received into the service of the United States."

The authority contained in the latter provision, for the acceptance and muster of officers not provided for by law in similar organizations of the Regular Army, or of officers with higher rank or pay than is allowed by law to officers of similar grades in the Regular Army, applies only to those who held commissions in, and were actually in service with, the militia organizations of the several States and Territories, at the time the members of the same enlisted in the Volunteer Army in a body, and were appointed by the governors thereof, under the authority of this act, to similar positions in the volunteer organizations. Hence, upon the promotion, discharge, resignation, or death of any such officers, who have been or may be appointed in excess of the Regular Army organization, and not otherwise provided for by law, the offices held by them in the United States Volunteers lapse and cease to exist, and no persons can be appointed and mustered in the United States service in their places.

II. In all cases where troops expend small-arms ammunition in target practice, under General Orders, No. 52, October 25, 1894, from this office, the empty shells, after firing, will be packed in empty ammunition boxes and shipped by the company commanders to Frankford Arsenal.

WAR DEPARTMENT,
 ADJUTANT GENERAL'S OFFICE,
Washington, July 16, 1898.

The following is published to the Army for the information and guidance of all concerned:

Information having reached the War Department that notwithstanding the medical examination prior to muster-in, men have been enlisted in the Volunteer Army who should have been rejected at that examination as unfit for military service, the attention of Chief Surgeons is directed to this subject as one of great importance. Systematic inquiry, with a view to eliminating such men, should be made in the various regiments and other commands by the medical officers on duty with them. A board of medical officers should be appointed in each division to carefully examine and make recommendation in each of the cases submitted by individual or regimental medical officers. In every case where discharge from service is recommended, it should be seen that the certificates of disability embody a statement to the effect that the cause of the disqualification for the military service existed prior to the enlistment of the man, if such is found to be the fact. Department and corps commanders are authorized to order discharges on certificates of disability, such orders to be carried out by the regimental, independent battalion, battery, or detachment commanders, as the case may be. Such provisions of paragraph 140 of the Regulations as are inconsistent with the foregoing are suspended during the war.

In the examination of certificates of disability for discharge it is enjoined upon the Chief Surgeons, and others accountable, to observe that there is no conflict between the reports of company commanders, medical and other officers thereon, as to whether disability was incurred in line of duty or not in line of duty. If any discrepancies exist in this particular, every possible means will be employed to harmonize the reports before finally forwarding the papers to the Adjutant General of the Army.

WAR DEPARTMENT,
ADJUTANT GENERAL'S OFFICE,*Washington, July 18, 1898.*

The following, received from the President of the United States, is published for the information and guidance of all concerned:

EXECUTIVE MANSION,
Washington, July 13, 1898.

To the SECRETARY OF WAR.

SIR: The capitulation of the Spanish forces in Santiago de Cuba and in the eastern part of the Province of Santiago, and the occupation of the territory by the forces of the United States, render it necessary to instruct the military commander of the United States as to the conduct which he is to observe during the military occupation.

The first effect of the military occupation of the enemy's territory is the severance of the former political relations of the inhabitants and the establishment of a new political power. Under this changed condition of things the inhabitants, so long as they perform their duties, are entitled to security in their persons and property and in all their private rights and relations. It is my desire that the inhabitants of Cuba should be acquainted with the purpose of the United States to discharge to the fullest extent its obligations in this regard. It will therefore be the duty of the commander of the army of occupation to announce and proclaim in the most public manner that we come not to make war upon the inhabitants of Cuba, nor upon any party or faction among them, but to protect them in their homes, in their employments, and in their personal and religious rights. All persons who, either by active aid or by honest submission, cooperate with the United States in its efforts to give effect to this beneficent purpose will receive the reward of its support and protection. Our occupation should be as free from severity as possible.

Though the powers of the military occupant are absolute and supreme and immediately operate upon the political condition of the inhabitants, the municipal laws of the conquered territory, such as affect private rights of person and property and provide for the punishment of crime, are considered as continuing in force, so far as they are compatible with the new order of things, until they are suspended or superseded by the occupying belligerent, and in practice they are not usually abrogated, but are allowed to remain in force and to be administered by the ordinary tribunals, substantially as they were before the occupation. This enlightened practice is, so far as possible, to be adhered to on the present occasion. The judges and the other officials connected with the administration of justice may, if they accept the supremacy of the United States, continue to administer the ordinary law of the land, as between man and man, under the supervision of the American Commander-in-Chief. The native constabulary will, so far as may be practicable, be preserved. The freedom of the people to pursue their accustomed occupations will be abridged only when it may be necessary to do so.

While the rule of conduct of the American Commander-in-Chief will be such as has just been defined, it will be his duty to adopt measures of a different kind, if, unfortunately, the course of the people should render such measures indispensable to the maintenance of law and order. He will then possess the power to replace or expel the native officials in part or altogether, to substitute new courts of his own constitution for those that now exist, or to create such new or supplementary tribunals as may be necessary. In the exercise of these high powers the commander must be guided by his judgment and his experience and a high sense of justice.

One of the most important and most practical problems with which it will be necessary to deal is that of the treatment of property and the collection and administration of the revenues. It is conceded that all public funds and securities belonging to the government of the country in its own right, and all arms and supplies and other

movable property of such government, may be seized by the military occupant and converted to his own use. The real property of the state he may hold and administer, at the same time enjoying the revenues thereof, but he is not to destroy it save in the case of military necessity. All public means of transportation, such as telegraph lines, cables, railways and boats belonging to the state may be appropriated to his use, but unless in case of military necessity they are not to be destroyed. All churches and buildings devoted to religious worship and to the arts and sciences, all schoolhouses, are, so far as possible, to be protected, and all destruction or intentional defacement of such places, of historical monuments or archives, or of works of science or art, is prohibited, save when required by urgent military necessity.

Private property, whether belonging to individuals or corporations, is to be respected, and can be confiscated only for cause. Means of transportation, such as telegraph lines and cables, railways and boats, may, although they belong to private individuals or corporations, be seized by the military occupant, but unless destroyed under military necessity are not to be retained.

While it is held to be the right of the conqueror to levy contributions upon the enemy in their seaports, towns, or provinces which may be in his military possession by conquest and to apply the proceeds to defray the expenses of the war, this right is to be exercised within such limitations that it may not savor of confiscation. As the result of military occupation the taxes and duties payable by the inhabitants to the former government become payable to the military occupant, unless he sees fit to substitute for them other rates or modes of contribution to the expenses of the government. The moneys so collected are to be used for the purpose of paying the expenses of government under the military occupation, such as the salaries of the judges and the police, and for the payment of the expenses of the Army.

Private property taken for the use of the Army is to be paid for, when possible, in cash at a fair valuation, and when payment in cash is not possible, receipts are to be given.

All ports and places in Cuba which may be in the actual possession of our land and naval forces will be opened to the commerce of all neutral nations, as well as our own, in articles not contraband of war, upon payment of the prescribed rates of duty which may be in force at the time of the importation.

General SHAFER,

Commanding U. S. Forces, Santiago, Playa:

The President of the United States sends to you and your brave army the profound thanks of the American people for the brilliant achievements at Santiago, resulting in the surrender of the city and all of the Spanish troops and territory under General Toral. Your splendid command has endured not only the hardships and sacrifices incident to campaign and battle, but in stress of heat and weather has triumphed over obstacles which would have overcome men less brave and determined. One and all have displayed the most conspicuous gallantry and earned the

gratitude of the Nation. The hearts of the people turn with tender sympathy to the sick and wounded. May the Father of Mercies protect and comfort them.

The following order of the President directing the opening of postal communication between the United States and Santiago de Cuba and such other portions of the enemy's territory as may from time to time come into the possession of the land and naval forces of the United States is published for the information and guidance of all concerned:

EXECUTIVE MANSION,

Washington, July 21, 1898.

In view of the occupation of Santiago de Cuba by the forces of the United States, it is ordered that postal communication between the United States and that port, which has been suspended since the opening of hostilities with Spain, may be resumed subject to such military regulations as may be deemed necessary.

As other portions of the enemy's territory come into the possession of the land and naval forces of the United States, postal communication may be opened under the same conditions.

The domestic postal service within the territory thus occupied may be continued on the same principles already indicated for the continuance of the local municipal and judicial administration, and it may be extended as the local requirements may justify under the supervision of the military commander.

The revenues derived from such service are to be applied to the expenses of conducting it, and the United States postage stamps are therefore to be used.

The Postmaster-General is charged with the execution of this order in cooperation with the military commander, to whom the Secretary of War will issue the necessary directions.

2. Ration returns (Form No. 53, Subsistence Department) will be submitted by commanding officers of companies, troops, batteries, and other organizations with the morning report on the 10th, 20th, and last day of each month, when practicable; that of the 20th to include the remaining days of the calendar month, the others ten days each. In making up such returns due attention must be given by commanding officers to the duty of adding or deducting rations on account of men joining or leaving since the date when rations were last drawn for the command.

3. Ration returns of the company commanders, and others, of a regiment will, after each has been approved by the regimental commander, be consolidated by the regimental adjutant upon a regimental ration return (Form No. 66, herewith), which, after approval by the regimental commander, will be forwarded with the ration returns on which founded to the brigade commissary of the command, who will consolidate the regimental ration returns of each brigade on a separate brigade ration return (Form No. 67, herewith). When approved by the brigade commander, the brigade ration returns only will be forwarded for the information and supervision of the chief commissary of the army corps, who will refer them to the depot commissary for invoice and transfer of the rations in bulk to the respective brigade commissaries (Form No. 68, herewith). In order to prevent accumulation of surplus ration articles in the hands of brigade commissaries, arising from savings and other causes, the final ration return of the brigade each month (or any brigade ration return, if occasion requires) will give a list of

such articles on hand as should be deducted by the depot commissary from the quantities called for by the brigade ration return.

4. Should a brigade be separated from the division of which it is a part, the brigade ration return, approved by the brigade commander, will be forwarded direct by the brigade commissary to the depot commissary for issue. Should a division be separated from its corps, the brigade ration returns, after approval by the brigade commanders, will be referred by the division commissary to the depot commissary for invoice and transfer of the rations in bulk to the brigade commissaries (Form No. 68).

5. Brigade commissaries, on receipt of the stores furnished from depot on the brigade ration returns, will issue rations, in accordance with the ration returns of the separate organizations forwarded by the regimental adjutants and retained in their possession, with such frequency as to the respective organizations as the brigade commander may direct.

6. Separate regiments, companies, detachments, hospitals, and other organizations not brigaded, will draw their rations from the depot commissary on proper ration returns.

7. The ration for issue to troops of the Cuban army and to Cuban destitutes will consist of the following articles:

8 ozs. bacon,	} To 100 rations.
12 ozs. flour, or 16 ozs. corn meal,	
6 lbs. coffee (green),	
10 lbs. sugar,	
2 qts. vinegar,	
4 lbs. salt,	
4 ozs. pepper,	
4 lbs. soap,	

8. Separate abstracts of issues (Form No. 40, Subsistence Department) will be made of issues to troops of the Cuban army, to Cuban destitutes, and to prisoners of war.

9. Compliance with the requirements of printed notes 6 and 8 on the abstract of issues (Form No. 40, Subsistence Department) and with the following requirements of Army Regulations, is hereby suspended during the period of the existing war:

(a) The requirement of that part of A. R. 1262 directing the indorsement upon travel orders of enlisted men the time to which they were last rationed, and directing the turning

over of the orders so indorsed to the commissary from whom rations are next drawn for file with his abstract of issues or receipt roll of commutation paid.

(b) The requirement of that part of A. R. 1262 directing that a ration certificate of troops detached (Form No. 41) shall be furnished to detachments of enlisted men and civil employees leaving a post or command, and the filing of such certificate with his abstract of issues by the commissary from whom rations are next drawn.

(c) The requirement of that part of A. R. 1275, directing that the retained copy of the travel orders of enlisted men paid commutation in advance shall be indorsed and delivered to the commissary from whom rations are next drawn for file with his abstract of issues.

Washington, August 9, 1898.

I. Sick and wounded soldiers sent to U. S. general or field hospitals will when able to travel be granted by the surgeons in charge one month's furlough and transportation to their homes. There will be noted on the furlough: By the surgeon, the post or camp nearest to the home of the soldier; by the

quartermaster, the issue of transportation; by the commissary, the days for which commutation of rations while traveling is paid. Weekly reports will be made by the surgeons to the Adjutant General of the Army of furloughs so granted, giving names, rank, regiments, and places to which transportation has been issued; also post-office address.

Soldiers granted furloughs in accordance with the foregoing will be instructed by the surgeons that on the expiration of their furloughs, if fit for duty, they must report at the nearest Army post, camp, or hospital for the purpose of being either sent to their regiments, or as provided for in paragraph II.

Those not fit for duty will be required to forward their furloughs, five days before expiration, to the Adjutant General of the Army, accompanied by the certificate of a reputable physician showing clearly their physical condition and the probable time required for their recovery.

The Quartermaster's Department will furnish the necessary transportation to the homes of the furloughed soldiers and the Subsistence Department commutation of rations at the rate of one dollar and fifty cents per day for the necessary number of days' travel. Sleeping-car accommodations when the travel is by rail and staterooms when the travel is by boat (other than Government transport) will be furnished under A. R. 1109. Neither the cost of transportation nor commutation of rations while traveling will be charged against the soldier. This order will not apply to soldiers on ordinary furloughs.

II. - The following instructions to provide for the disposition of enlisted men, patients in the U. S. general or field hospitals, *who have made complete recovery and are able to do full duty*, are published for the information and guidance of all concerned:

Soldiers, both regulars and volunteers, whose regiments are in the United States, will be sent by the surgeons in charge of hospitals to join their proper regiments.

Soldiers belonging to regiments of the Regular Army which are not in the United States will be sent by the surgeons in charge of hospitals to report for duty with recruit detachments of their respective regiments, except artillery soldiers of the Regular Army belonging to batteries which have left the United States, who will be sent to the headquarters of their respective regiments.

Those belonging to volunteer organizations which are not in the United States will be sent by the surgeons in charge of hospitals to the nearest military post or camp.

The names of all men sent from general or field hospitals under these instructions, their companies and regiments, and the places to which they are ordered, will be promptly reported to this office by the surgeons in charge of hospitals, who will be furnished, by this office, with weekly printed statements of the stations of U. S. troops—regulars and volunteers—which statements will also show the location of the detachments of recruits belonging to regiments of the Regular Army that are not in the United States.

The necessary transportation under this order will be furnished by the Quartermaster's Department, and the Subsistence Department will pay commutation of rations at the rate of one dollar and fifty cents per day for the necessary number of days' travel. These provisions will not apply to soldiers on ordinary furloughs.

III.—If the soldier has been paid or drawn clothing while in a hospital it will be noted on his descriptive list, if he has one, and if not, his company commander, or the officer to whom he may be ordered to report, will be furnished this information by letter.

GENERAL ORDERS, }
 No. 116. }

WAR DEPARTMENT,
 ADJUTANT GENERAL'S OFFICE,
Washington, August 10, 1898.

The following is published to the Army for the information and guidance of all concerned:

Medical officers in charge of general hospitals, hospital trains, hospital transports, and the hospital at the camp at Pablo Beach, Florida, and at the hospital at the camp at Montauk Point, New York, will be allowed to expend from the appropriation "Subsistence of the Army," for the diet of the enlisted men undergoing medical treatment under their charge, at the rate of not exceeding sixty cents per man per day for the period each is undergoing treatment. The allowance so made will constitute a special fund in the hands of the medical officer in charge, from which will be purchased the entire diet of the enlisted men while undergoing medical treatment. These purchases will be restricted to articles of food, solid and liquid, the quantities and varieties of which will be determined by the medical officer in charge.

Chief commissaries of departments will transfer to medical officers in charge such subsistence funds as may be estimated for by the latter for carrying out the objects of this order.

There will be rendered monthly to the Commissary General of Subsistence, by the medical officers concerned, regular accounts current supported by vouchers showing the application of these funds, and regular returns of subsistence stores accounting for the articles of food purchased and issued. There will be submitted with each monthly return a tabular statement showing the number of patients present during the month as shown by the hospital records, and the money value of the articles issued to and consumed by them. The statement will be so arranged as to show the actual cost of subsistence per man per day for the month.

Transfers of subsistence funds from one hospital, train or transport to another without authority of the Commissary General of Subsistence, and the purchase from subsistence funds of articles other than food intended for diet of the sick, are prohibited.

This order will go into effect at once, and all surplus funds in the hands of medical officers in charge, arising from the

commutation of rations heretofore allowed to enlisted men undergoing treatment under their charge, will be taken up on their accounts current for the month of August, and all articles purchased from such commutation remaining on hand unconsumed on receipt hereof will be taken up on their returns of subsistence stores for that month.

In order to prevent as far as possible the diseases incident to encampments of large bodies of men, namely: typhoid and malarial fevers, diarrhea and dysentery, and the further spread thereof where these diseases have already gained more or less headway, all officers, from the commanding general to company commanders, will exercise the utmost vigilance to enforce proper sanitary conditions in camp and strict cleanliness of the person.

The speedy destruction or removal with safety of all decaying substances present and future, and the rendering innocuous the feculent matter of the camp, must be accomplished.

The Quartermaster's Department will furnish lumber for floors to all tents. The general commanding camp will at once provide ample hospital facilities by erecting barracks where there is a shortage of hospital tents.

No effort will be spared to carry this order into effect to the fullest extent, and to this end those concerned will not rest content with the issuance of orders upon the subject, but they or their representatives, duly impressed with this grave responsibility, will immediately see to the commencement, continuance, superintendence, and practical accomplishment, day by day, of the instructions imposed upon the command.

The attention of all concerned is called to Army Regulations concerning interior economy, police, and discipline of companies, to Circular No. 1, Surgeon General's Office, April 25, 1898, to "Marches" and "Camping" in the authorized

Drill Regulations, to "Soldier's Handbook" and the remarks therein compiled. From these easily accessible data, supplemented by his own practical experience and that of others, the commanding general of each camp will at once prepare and put into immediate execution a simple code of rules, of the daily practical accomplishment of which he will assure himself, rendering daily reports to the Adjutant General of the Army.

Copies of the rules promulgated will be sent at the earliest moment to the Adjutant General of the Army.

GENERAL ORDERS, }
No. 124.

WAR DEPARTMENT,
ADJUTANT GENERAL'S OFFICE,
Washington, August 20, 1898.

I..The following instructions for the muster out of the service of United States Volunteers are published for the information and guidance of all concerned:

1. Only officers of the Regular Army will be detailed by the War Department to muster out troops, and in all matters pertaining to their duties as mustering officers the officers and men of organizations to be mustered out will be guided by the instructions of these officers, given in pursuance of authority conferred by the Secretary of War.

2. The mustering officer, proceeding according to a well considered plan, suited to the situation, will make full use, under the supervision of the company or other commander, of the men of each company or other organization possessing clerical ability, so that the transfer of property, preparation of physical record blanks, correction and completion of organization records, preparation and comparison of property returns, statements of charges, and muster-out rolls may be accomplished with the least possible delay, each individual engaged in the work of comparison being required to initial the paper compared, in order that the responsibility for errors in comparison may be fixed.

3. To avoid expense to the Government and hardships and annoyances to individuals concerned, by unavoidable delays that will occur in the final payment of officers and enlisted men absent from their commands on muster out, commanding officers will make every effort to effect the return of all

absentees and detachments prior to muster out of the organization, and if for any reason an officer or an enlisted man absent is unable to join his command, a full report of the facts will be made to the Adjutant General of the Army for further orders.

4. The mustering officer, from the daily reports of his staff assistants, and his own notes, will telegraph to the Adjutant General of the Army, in brief, daily progress in the preparation of returns, vouchers, muster-out rolls, transfer and disposition of property, physical examination of troops, muster out, payment, and departure from the camp or station, with designation of the organization, and statement of the number of officers and men separately.

5. Officers who at any time were responsible for public property of any description must obtain certificates of nonindebtedness before their final payment can be made. Commanding officers will therefore forward at once to the Paymaster General a complete list of *all* the officers of the organization to be mustered out, and to the Quartermaster General, Commissary General of Subsistence, Surgeon General, Chief of Engineers, Chief of Ordnance, and Chief Signal Officer, a list of those officers who are, or at any time have been, responsible for public property. Chiefs of the supply department mentioned will cause immediate examination of returns to be made and transmit the result thereof to the Paymaster General.

6. Officers who have not at any time been responsible for public property will be required to furnish the mustering officer with their affidavits to that effect, certified to by the commanding officer of the regiment, independent battalion or company. The affidavits of such officers will be transmitted with the muster-out rolls to the paymaster designated to make the payment to the organization.

7. All officers will be held to a strict accountability for the discipline of their commands and the preservation of public property. Mustering officers are empowered to prefer charges against officers who neglect in any manner to take the proper measures to insure the Government against loss of property or to keep their commands together and under proper discipline.

8. Officers of the staff departments of the Regular Army will be detailed, when practicable, to receive public property,

supervise the preparation of all returns and papers relating thereto, and for the performance of this duty will receive special instructions from the chiefs of the supply departments of the Army.

9. The supply departments of the Army will continue to furnish organizations with needful supplies until date of final payment and discharge.

10. The mustering officers, upon arrival at the camp or station of the organization to be mustered out, will make a careful examination of the regimental and company records and cause any omissions found to be supplied in order to complete the records.

11. Five muster-out rolls will be prepared under the supervision of the mustering officer by the proper commanding officers with the greatest care, to avoid any injustice being done to the Government or to persons who at any time were members of the organization, special attention being given to the requirements of the last paragraph of Circular No. 31, current series, from this office, being careful to note that settlement of clothing may involve different fiscal years, and all concerned in their preparation will initial the same and carefully read the "Instructions for the preparation of muster-out rolls" printed on the back of the rolls.

12. All persons borne on the muster-in and on all other muster rolls, and all who have joined or belonged to the organization at any time since its muster in, *must be accounted for on the muster-out roll*, which is required to be a complete record of all the officers and men who ever belonged to the organization.

13. After the muster-out rolls have been prepared they will be carefully examined by a board of officers, to be appointed by the commanding officer, which will be furnished with the retained copy of the muster-in roll, with copies of all the muster rolls of the organization and other necessary data. Under the supervision of the mustering officer the board will compare rolls and data with the muster-out rolls to insure their absolute correctness in all respects.

14. Discharged certificates will be prepared for every officer and man present and absent, except absent officers and men held in service by proper authority and deserters. These

will be signed by the commanding officer for the field, staff, and band, by company commanders for their companies, and all will be countersigned by the mustering officer at place of departure, who will forward them by registered mail to the mustering officer at the State rendezvous for delivery to the paymaster, who will stamp and sign them as required by paragraph 1383, A. R. The certificates will then be delivered to the regimental and company commanders.

15. The discharge from the United States Volunteer service in the case of all absentees (except in special cases otherwise provided for or such as may be held in service by proper authority) will take effect on the date of muster out of the organization

16. In all cases of absentees, where the officer at the time of executing the certificates of discharge is not aware of the date of muster out of the organization, he will set forth in writing thereon that the same take effect as of the date of the muster out of the United States service of the company or other immediate organization upon the muster roll of which the individual's name appears.

17. In the case of enlisted men absent, who on account of sickness are unable to join their commands, the discharge certificates, with carefully prepared descriptive lists of account of pay and clothing, giving the address of the soldier, will be given to the mustering officer for transmission with the muster-out rolls to the Adjutant General of the Army, and the soldier will be officially notified to apply by letter to the Paymaster General of the Army for final payment. In cases of soldiers absent on detached service who are held in service by proper authority, descriptive lists, if not already furnished, will be sent to the officers under whom they are serving, and when such men are ordered to be mustered out (on detachment muster-out rolls) the proper officers will prepare and sign the discharge certificates after the medical examination has been had, as provided for in paragraph II of this order.

18. Officers absent from any cause will be furnished discharge certificates (unless specially held to service) and will be notified to apply to the Paymaster General for certificates of nonindebtedness and settlement of their accounts.

19. In the cases of enlisted men absent sick and of officers absent on muster out of organizations, the required examination will be made under special instructions to be issued by the Adjutant General of the Army.

20. As a rule, the muster out of organizations and their final payment will take place at the State or regimental rendezvous, except when otherwise ordered by the War Department. The preparation and completion of the muster-out rolls, returns, and papers, and the inspection and transfer of public property to the officers of the supply departments of the Army, except as hereinafter provided, will take place before the organization is ordered to its State. The only property that will be allowed to be retained until muster out, unless otherwise ordered by the mustering officer, is the rifles, cartridge belts, cups, canteens, meat cans, knives, forks, and spoons, necessary *medical supplies* and tent equipage, the colors, and the regimental and company records.

21. The supply departments concerned will arrange through the Chief Commissary and Chief Quartermaster of the department within which the State rendezvous is located for meals, camp ground, shelter, transportation, and quartermasters' supplies for the time of the encampment of the organization at the State or regimental rendezvous.

22. As soon as the muster-out rolls have been fully and satisfactorily completed, the mustering officer at the place of departure will fill in the date of the muster out *as of a date ten days later* (the probable time necessarily required to transfer the organization to its State rendezvous, the making of the physical examination of officers and men, etc.), and forward at once by registered mail two copies to the paymaster designated to make the final payment, and the remaining three copies of the rolls to the mustering officer at the State rendezvous.

23. The duties with which mustering officers and officers of the supply departments of the Army are charged by this order will be so systematically performed that the organization can proceed to its State rendezvous without delay (*for which timely transportation and subsistence will be provided*) freed from all property accountability, except that mentioned in

paragraph 20; with all rolls, returns, and papers completed to date in order to avoid unnecessary delay when it reaches its home station in carrying out the following instructions:

II. . . As soon after the arrival of the organization at its State rendezvous as possible the physical examination of all officers and men will be made, before muster-out and payment.

PHYSICAL EXAMINATION OF OFFICERS AND MEN.

1. To facilitate the settlement of pension claims that may be made on account of disability incurred in the United States service and to protect the rights of persons who may be entitled to the benefits of the pension laws as well as to guard the interests of the Government, it is ordered that a thorough physical examination be made of all officers and enlisted men of Volunteers, except general officers and officers of the general staff, immediately prior to their muster out of service or discharge. For this purpose a blank form will be supplied by the Adjutant General of the Army.

2. When an organization is about to be mustered out of the service each officer and enlisted man will be required by his company or other commanding officer to answer the questions on the blank form "Declaration of person to be mustered out," which, when completed, will be signed by him and duly witnessed by said officer. This officer will then make the required certificate, which follows the declaration, based upon the official records of the organization and on his personal knowledge of the facts in the case.

3. When the physical examination papers of the officers and men of a company or other organization are so far completed, they will be given to the mustering officer, who will cause the physical examination to be made and said papers to be completed by a medical officer of the Regular Army, whenever the services of such an officer are available, and when not, then by a medical officer of Volunteers *not belonging to the organization of which the officers and men are members*.

4. The mustering officer will report to the Adjutant General of the Army any person under examination who claims to have a disability of which the medical officer can find no

evidence, or claims to have a disability incurred in line of duty, whereas the medical officer is of the opinion that the disability was not so incurred, such person will not be discharged until after he shall have been examined by a board of three medical officers, to be convened by the Adjutant General of the Army, which will make a full report of the case in accordance with the terms of this order. If the medical officers fail to agree with regard to the case, a separate minority report will be made by the dissenting officer.

5. Upon completion of the medical examination the papers in the case will be turned over to the mustering officer, who will forward them with the muster-out rolls to the Adjutant General of the Army.

6. The physical examination having been completed, the regimental and company records and blanks, and the colors, will be packed and marked, showing the organization to which they pertain, and forwarded to the Adjutant General of the Army the day before the muster out and payment takes place. On the same day or earlier, as may be deemed advisable by the mustering officer, the ordnance and other public property in possession of the organization will be turned over to the proper officers of the supply departments, to be disposed of in accordance with the special instructions received by them, and all returns finally completed and rendered, and all supplementary charges entered on the muster-out rolls.

III.. On arrival of the paymaster at the State rendezvous the mustering officer will deliver to him the discharge certificates for the purpose indicated in section 14 of this order, and on the day of payment the organization will be paraded and the mustering officer will cause the names of all officers and enlisted men present and absent to be called out, requiring those present to answer and step briskly five paces in front of the line. As soon as the muster of a company has been completed, the mustering officer will direct it to be marched to the pay table for payment and discharge, handing a copy of the muster-out roll to the company commander. On completion of the payment of the organization, the mustering officer will send one copy of the muster-out roll to the Adjutant General of the State and the remaining copy to the Adjutant General of the Army.

Mustering officers will make daily notes of the progress of the work accomplished, and require staff assistants to do likewise, keeping careful and convenient records of all correspondence, properly indexed, and upon completion of the duty cause said staff assistants to render through him, for transmittal with his own to the Adjutant General of the Army, full reports of the work accomplished, with recommendations as to the solution of the problem involved in the muster out of service of troops of the United States Volunteer Army.

IV.-- Upon an honorable muster out and discharge from the service of the United States, all volunteer soldiers, desiring to do so, are hereby authorized to retain their arms and accouterments upon the value thereof being charged to them on the muster-out rolls at the following rates:

The following additional instructions amendatory of those contained in General Orders, No. 124, August 20, 1898, from this office, are published for the information and guidance of all concerned:

1. Except the officers and men required by paragraph 5 for the necessary guard details, etc., leaves of absence for sixty days and furloughs for the same period will be granted all officers and enlisted men of organizations which have served beyond the limits of the United States, and thirty days to officers and men of organizations which have not served beyond the limits of the United States when such organizations are ordered to be mustered out of service.

2. Such leaves of absence and furloughs will be granted by the commanding officers after organizations have arrived at State rendezvous, all to take effect on *one date* for thirty days or sixty days, as the case may be, and all officers and men must without fail report at the rendezvous on the *thirtieth* or *sixtieth day thereafter*. Any officer or man failing to so report will be considered and reported as a deserter, unless prevented from doing so by sickness, which must be satisfactorily explained by the certificate of a reputable physician and the fact noted on the rolls.

3. Before organizations are granted furloughs, the preparation for muster out, as required by General Orders, No. 124, August 20, 1898, from this office, will, in view of the foregoing, be carried out only so far as relates to the inspection and correction of records; inspection and transfer of such public

He will notify the Adjutant General of the Army of his arrival at rendezvous, and at the earliest possible moment the date on which leaves and furloughs expire.

6. In preparing muster-out rolls, the number of days while on furlough will be stated under the heading on the roll "Subsistence, No. of days," and the paymaster in the "pay account" on the roll will change the heading "for horses and equipments" to "Commutation for furlough rations," and credit each man at the rate of twenty-five cents per day for the number of days due and pay the same. The amount so paid for commutation of rations by the Pay Department will be refunded from the appropriation made for the Subsistence Department.

7. Mustering officers are empowered to administer oaths in all matters pertaining to the muster out of volunteers.

8. As soon as practicable the usual monthly pay rolls will be made out for the month preceding departure on furlough, and sent to the chief paymaster of the military department in which the organization's rendezvous is situated. Upon these rolls alone can the officers and enlisted men be paid prior to departure on leave or furlough.

The accompanying order of the Postmaster General, fixing the rates of charges for telegraphic communications for the current fiscal year is published for the information of the Army.

BY ORDER OF THE SECRETARY OF WAR:

H. C. CORBIN,
Adjutant General.

RATES OF PAY FOR COMMUNICATIONS BY TELEGRAPH.

POST OFFICE DEPARTMENT,
Washington, D. C., July 29, 1898.

ORDER No. 277.

Pursuant to the authority vested in the Postmaster General by the Act of Congress entitled "An Act to aid in the construction of telegraph lines, and to secure to the Government the use of the same for postal, military, and other purposes," approved July 24, 1866, and by the Revised Statutes of the United States, Title LXV, I hereby fix the rates at which such communications as the said Statutes prescribe (not including those passing over circuits established by the Chief of the Weather Bureau, Department of Agriculture) shall be sent during the fiscal year beginning July 1, 1898, and terminating June 30, 1899, by the several companies within the effect of said statutes, as follows:

For day messages containing not more than twenty (20) words, exclusive of place from and date, twenty (20) cents, not exceeding one thousand (1,000) miles, and one cent for each additional word. One quarter of this rate to be added for each five hundred (500) miles, or fraction thereof, but no rate on a message of twenty (20) words to be more than forty (40) cents, nor on an additional word more than two (2) cents. The rate between all points in any State, Territory, or the District of Columbia shall be twenty (20) cents for twenty (20) words, and one cent for each additional word.

In cases where the price of a message, determined as herein provided, shall include a fraction of a cent, such fraction, if less than one-half, is to be disregarded; if one-half or more, it is to be counted as one cent.

For night messages not exceeding twenty (20) words, exclusive of place from and date, fifteen (15) cents for any distance within two thousand (2,000) miles, and for greater distances twenty-five (25) cents; in each case one cent for each additional word.

Instead of computing the actual distance of transmission, the distance for payment shall in all cases be taken absolutely to be the number of miles between the capital of the State or Territory, or from the city of Washington, if from within the District of Columbia, from within which (whatever the place) the message is sent, and the capital of the State or Territory, or the city of Washington, if within the District of Columbia, within which (whatever the place) the message is received, as shown in the accompanying table, wherein such distances are given as computed upon the shortest practicable route between such capitals, and which is to be taken as part of this order.

But it is provided that if, on the 1st day of July, 1898, or at any time during the ensuing year, any such company shall charge the public for a message of ten words or less, exclusive of the date, address, and signature, a less rate than is herein fixed for twenty words, exclusive of place from and date, the rates here prescribed shall, as to such company, thenceforth during the year be reduced to the rates so charged to the public.

The statutes provide that telegrams between the several Departments of the Government and their officers and agents, in their transmission over the lines of any such company, shall have priority over all other business. All officers of the United States sending such telegrams should indorse thereon the words "Official Business," and should report to the Postmaster General any failure to transmit them in such priority, and any charge made in excess of the rates above prescribed.

Each company will be allowed to charge for messages received from another line at the same rate as if received from the Government direct, at the point of transfer for transmission over its own line.

CH. EMORY SMITH,
Postmaster General.

GENERAL ORDERS, }
No. 133.

WAR DEPARTMENT,
ADJUTANT GENERAL'S OFFICE.
Washington, September 2, 1898.

The following letter of the Comptroller of the Treasury, of June 22, 1898, is published to the Army for the information and guidance of all concerned:

TREASURY DEPARTMENT,
OFFICE OF COMPTROLLER OF THE TREASURY,
Hon. G. D. MEIKLEJOHN, *Washington, D. C., June 22, 1898.*
Assistant Secretary of War.

SIR: Referring to your verbal inquiry of to-day in reference to furnishing copies of telegrams as vouchers to accounts for services rendered by telegraph companies, I have the honor to inform you that there is no case pending in this office involving this question. The decision of the Comptroller of November 18, 1897 (4 Comp. Dec., 233), is the last decision upon this point. At that time the following language was used by the Comptroller in reference to confidential messages:

Some unusual public interest may require the sending of a confidential telegram where secrecy is a public necessity. In such a case the suppression of such a message would be justified on the ground of paramount necessity, and the general requirements of accounting must yield. Such instances, fortunately, are of rare occurrence, and should not be made the excuse for the retention of *all* telegrams. When such an exceptional case presents itself a certificate of the Secretary of War may be accepted in lieu of the message, provided said certificate covers all material points. The certificate should state that the message was actually transmitted, and was confidential, and that it would be prejudicial to the public interests to have it exposed; that it was on public business, and the number of words it contained; whether it was a day or night message; ordinarily the person by whom sent and to whom delivered; the place from which sent and where delivered; whether or not directions were given for its transmission over a bond-aided line; such a showing of the nature of the business upon which the message was sent as will enable the accounting officers to determine the appropriation properly chargeable with the expense; and that the same has not been paid.

The "unusual public interest" referred to in that decision is certainly met by the present conditions, and I have no doubt that the telegrams which it is necessary for the War Department to send during the present war are, many of them, of a confidential character. I do not think there will be any difficulty in this matter if the Secretary of War will attach to the accounts a certificate substantially in the form suggested by the Comptroller's decision. Such a certificate should contain a statement that the telegraphing was on public business, the number of words in the message, whether day or night message, etc. It will be unnecessary to state the person to whom it is sent, or the place to which it is sent, if either of these facts is in itself a confidential matter. Unless the subject to which the telegram relates is stated, the appropriation should be designated.

I think with this explanation of the former decision of this office there should be no difficulty, during the present war, in having the telegraph accounts of your Department certified for payment. In such times as these the responsibility must devolve upon the War Department, and not upon the accounting officers, to a large extent.

Respectfully yours,

R. J. TRACEWELL,
Comptroller.

BY ORDER OF THE SECRETARY OF WAR:

H. C. CORBIN,
Adjutant General.

GENERAL ORDERS, }

No. 134.

WAR DEPARTMENT,
 ADJUTANT GENERAL'S OFFICE,
Washington, September 2, 1898.

The following is published to the Army for the information and guidance of all concerned:

1. Furloughs granted to enlisted men under the provisions of General Orders, No. 130, War Department, Adjutant General's Office, August 29, 1898, will not be given on the usual blank forms for furloughs, but will be given orally by commanding officers. If given in the regular form, however, before the receipt of this order, the fact will be noted on the muster-out roll, and paymasters will require their surrender before making final payment, and will enter the fact of payment upon them and file them with the pay roll on which payment is made.

2. It having been reported to the War Department that many convalescent soldiers who have received furloughs and started for their homes have been taken ill on the way, to avoid further occurrences of this kind it is suggested in the strongest possible terms that all soldiers traveling homeward on furloughs will exercise their best judgment in caring for themselves, especially those who have been ill in hospitals with fevers. Their appetites are very keen, and unless they deny themselves everything except the necessary food of the simplest character are in great danger of a relapse. This instruction is sent out hoping that it may catch the eye of those men *en route* and also for the instruction of surgeons at hospitals. It is ordered that no man shall receive a furlough whom the surgeon in charge believes to be unable to travel alone, and that no furloughed soldier shall leave hospital without receiving full instructions as to his diet while *en route* to his home from his surgeon.

BY ORDER OF THE SECRETARY OF WAR:

H. C. CORBIN,
Adjutant General.

GENERAL ORDERS, }
 No. 135. }

WAR DEPARTMENT,
 ADJUTANT GENERAL'S OFFICE,
Washington, September 3, 1898.

I..The commanding officers of military departments, army corps, and detached commands will, as soon as practicable, forward to the Adjutant General of the Army the names of such officers of the Army, regular and volunteer, as may be considered entitled to the brevet commissions "for distinguished conduct and public service in the presence of the enemy," under section 1209, Revised Statutes. These lists will be forwarded through the military channel, and will show in each case the name, rank, regiment, or corps of the officer, and the date and place of the action in which he is reported as having distinguished himself, and also a description of the specific act of gallantry.

II..The following rules will govern the award of medals of honor under the resolution of Congress approved July 12, 1862, and under the act approved March 3, 1863, for such officers and enlisted men of the Army, regular and volunteer, as may "have most distinguished themselves in action."

(a) Medals of honor will not be awarded to officers or enlisted men except for distinguished bravery or conspicuous gallantry, which shall have been manifested in action by conduct that distinguishes a soldier above his comrades, and that involves risk of life, or the performance of more than ordinarily hazardous duty. Recommendations for the award will be governed by this interpretation of extraordinary merit.

(b) Recommendations should be made only by the officer in command at the time of the "action," or by an officer having personal cognizance of the specific act for which the medal is granted. The recommendation must be accompanied by a detailed recital of the circumstances, and by certificates of officers, or affidavits of enlisted men, who were eye-witnesses of the act. The testimony must, when practicable, embrace that of at least two eye-witnesses, and must describe specifically the act or acts by which the person in whose behalf the recommendation is made "most distinguished" himself, and the facts in the case must be further attested by the official reports of the action, record of events, muster rolls and returns, and descriptive lists.

Adjutant General.

GENERAL ORDERS,	}	WAR DEPARTMENT,
		ADJUTANT GENERAL'S OFFICE,
No. 136.		<i>Washington, September 3, 1898.</i>

The following is published to the Army for the information and guidance of all concerned:

The provisions of General Orders, No. 116, War Department, Adjutant General's Office, August 10, 1898, are hereby extended to include all field and post hospitals.

In this connection it is to be understood that General Orders, No. 116, does not do away with the hospital fund, but applies to patients who, in the opinion of the surgeon, are too sick to use the ration. For patients that can use the ration and for the Hospital Corps savings can be made as heretofore. Nor does the order take away the privilege of using funds and supplies furnished by aid societies, the using of which is left to the discretion of the surgeon, as is also the question whether or not there should be separate tables, kitchens, etc., having in mind the fact that the subsistence fund is to be used for those patients who need special articles of diet. General Orders, No. 116, is further intended to place in the hands of the surgeon a fund from which necessary articles of diet for patients too sick to use the ration can be purchased, without waiting for the formation of a hospital fund, and at the same time to prevent a large hospital fund accruing from those too sick to use the ration.

To sum up, the allowance of subsistence funds is intended to furnish the surgeon with the necessary funds for the purchase of such articles of the diet as in his discretion he may find necessary. It is not intended for those well enough to use the ration, nor is it intended to furnish the Hospital Corps with delicacies and special articles of the ration which could not be purchased from their own savings.

BY ORDER OF THE SECRETARY OF WAR.

H. C. CORBIN,
Adjutant General.

The following letter of the Commissioner of Internal Revenue, Treasury Department, August 29, 1898, is published for the information and guidance of all concerned:

TREASURY DEPARTMENT,
OFFICE OF THE COMMISSIONER OF INTERNAL REVENUE,
Washington, D. C., August 29, 1898.

To the Honorable The SECRETARY OF WAR.

SIR: Under date of the 25th instant, you referred to the Secretary of the Treasury a communication received by you from the Paymaster General U. S. Army, who inclosed a copy of a pay account of an officer of the Army assigned or transferred by the officer by endorsement thereon. The Paymaster General desires a ruling on the question as to whether the assignment or transfer requires a stamp.

The assignment reads as follows: "Pay to the order of the National La Fayette Bank, Cincinnati, Ohio," signed by the officer.

This is an order for the payment of money and requires, if the money is due and payable on demand, a two-cent stamp. If, however, the officer has anticipated his pay and the amount is not due him at the date of assignment, the endorsement is an order for the payment of money otherwise than at sight or on demand and requires a stamp at the rate of two cents for each one hundred dollars or fractional part thereof.

There is on the copy of the accounts enclosed another endorsement which reads "Pay to the Continental National Bank of Chicago, or order," signed by the National La Fayette Bank, Cincinnati, Ohio, by its cashier.

This is also an order for the payment of money and requires additional stamps.

Respectfully yours,

N. B. SCOTT,
Commissioner.

I..The following is published to the Army for the information and guidance of all concerned:

It is ordered that a Quartermaster be stationed at each General Hospital for the purpose of giving transportation to soldiers who are sent home on sick furlough, and in every instance when the officer in charge of the Hospital issues a furlough he should state on the furlough that under General Orders, No. 114, August 9, 1898, this office, the soldier so furloughed is entitled to transportation and, if in the judgment of the surgeon the soldier should be furnished with sleeping-car accommodations, that fact will be stated, and when it so appears on the furlough the Quartermaster must not only issue transportation but sleeping-car accommodations as well.

II..General Orders, No. 130, August 29, 1898, from this office, is so far amended as to place commissioned officers who belong to organizations furloughed for sixty days on waiting orders for the convenience of the Government for that period, instead of granting them leaves of absence.

III..In addition to the instructions contained in paragraphs 596 and 597 of the Regulations, and Circular No. 18, September 2, 1897, from this office, relative to the issue of checks, it is required that hereafter each check drawn by a disbursing officer shall have placed on it the address of the officer drawing it.

By direction of the Acting Secretary of War, the following is published to the Army for the information and guidance of all concerned:

1. The Ordnance Department has a sufficient supply of smokeless-powder cartridges for caliber .45 arms. These cartridges will be used in actual operations against an enemy only. The black-powder cartridges will be used in target practice and the smokeless-powder cartridges issued only when active operations against an enemy are anticipated.

2. When the generals commanding troops in foreign departments deem it advisable that the regiments armed with caliber .45 arms should have their arms exchanged for the caliber .30 magazine rifles, they will have regular requisitions for such exchange forwarded through department headquarters to the Chief of Ordnance. As all the regiments can not have their arms exchanged, in making such requisitions the department commander should confine the requisitions for exchange to troops that have had such experience as to fit them for the taking care and making efficient use of the magazine arm; and they should also consider the fact that the black-powder cartridge in action was the principal and only material objection to the caliber .45 rifle; that in some respects it is preferable, especially for new troops, and that therefore the use of the smokeless-powder cartridge generally avoids the necessity for the exchange.

		<i>Washington, September 19, 1898.</i>

By direction of the Acting Secretary of War, the following is published to the Army for the information and guidance of all concerned:

I..In view of the fact that under General Orders, No. 114, August 9, 1898, from this office, granting \$1.50 a day to sick soldiers while traveling to their homes on furlough, the commissary paying this commutation was required to note on the furlough "the days for which commutation of rations while traveling is paid" by him, and by the concluding part of paragraph I of the same order the \$1.50 per day thus paid was not to be repaid to the United States by the soldier, it is ordered that when any of the days at \$1.50 per day are shown by the notation on the furlough to have been days covered by the period of the furlough, the officer paying furlough commutation under clause 1 of paragraph 1272 of the Regulations will refuse to allow twenty-five cents per day for those same days when computing the amount due the soldier on reporting at the expiration of the furlough.

II..Claims of soldiers alleging failure on their part to receive, at initial points of journeys, the commutation of rations at \$1.50 per day while traveling to their homes on furloughs granted under General Orders, No. 114, August 9, 1898, from this office, will be forwarded to the Commissary General of Subsistence, accompanied (a) by the furlough, or (b) by a statement of the name of the disbursing officer who took up the furlough and paid commutation of rations thereon at twenty-five cents per day. Claims thus presented will be transmitted by the Commissary General of Subsistence to the Auditor for the War Department, with a statement of the names of the disbursing commissaries in the neighborhood of the initial points of the journeys, in order that examination may be made by the Auditor of the accounts of those commissaries, and the accuracy of the claim of failure to receive the commutation verified before settlement by him. Claims for such commutation alleging loss of furlough will not be entertained.

III..Commanding officers of organizations ordered to be mustered out of the service are authorized to extend the leaves of absence and furloughs granted officers and men prior to the receipt of orders for muster out, to cover the period for which leaves and furloughs are granted under the provisions of General Orders, No. 130, August 29, 1898, from this office.

GENERAL ORDERS,	}	HEADQUARTERS OF THE ARMY,
		ADJUTANT GENERAL'S OFFICE,
No. 149.		<i>Washington, September 20, 1898.</i>

By direction of the Secretary of War, the following instructions, in the matter of pay of commissioned officers and enlisted men of volunteer organizations in the service of the United States, are published for the information and guidance of all concerned:

Battalion adjutants and battalion sergeants major, as extra officers and noncommissioned officers, are not authorized by

law, and can not be paid as such, except in cases where they held those positions in, and were in service with, State or Territorial militia organizations, whose members enlisted in the Volunteer Army in a body, and were duly appointed to corresponding positions in the volunteer organizations composed of members of militia organizations so enlisting.

Should a vacancy occur in any of these offices after the muster in of the organization, an appointment to fill such vacancy (which is prohibited by General Orders, No. 98, War Department, Adjutant General's Office, July 15, 1898) will not, if made, entitle the appointee to pay as battalion adjutant or sergeant major, and he will be entitled to pay only as hereinafter provided for, in cases where details are made to those positions.

In all cases where extra officers as adjutants and extra sergeants major for battalions are not authorized, lieutenants detailed as battalion adjutants can receive no more than mounted pay of their grade, their regimental commanders certifying that their duties require them to be mounted; and battalion sergeants major, who may be detailed from sergeants of companies, will not be entitled to any pay other than the pay of their grade as company sergeants.

In cases where extra officers as adjutants and sergeants major for battalions are authorized by law, the adjutants will be entitled to the pay of regimental adjutant, and the sergeants major to the pay of regimental sergeant major; but should any such adjutants or any regimental quartermasters or assistant surgeons hold the rank of captain under State laws they can receive no more than the pay provided by the United States laws for the offices held by them respectively; that is to say, the salary attached to the office of adjutant or quartermaster is \$1,800 per annum, and the salary attached to the office of assistant surgeon, of less than five years' service, is \$1,600 per annum.

The Acting Comptroller of the Treasury has decided that the salary attaches to the *office* and not to the *rank* of the incumbents of these offices.

By act of Congress approved July 7, 1898, the pay of chaplains of volunteers is fixed at that of a captain, mounted, and they will be so paid from and after the date of the act.

By act of Congress also approved July 7, 1898, it is provided that all officers and enlisted men of volunteers shall be paid from the day on which they had their names enrolled for service in the Volunteer Army of the United States and joined for duty therein, after having been called for by the Governor on the authority of the President. Officers and enlisted men of volunteers who have not been paid for the period between date of enrollment and date of muster into the service of the United States may be paid the same upon the next pay rolls of their commands, upon proper muster for the same, great care being exercised to correctly state the date of enrollment and date from which pay was paid by the United States.

GENERAL ORDERS,	}	HEADQUARTERS OF THE ARMY,
No. 150.		ADJUTANT GENERAL'S OFFICE,
		<i>Washington, September 21, 1898.</i>

I.—By direction of the Secretary of War, when volunteer soldiers whose regiments have been ordered to be or have been mustered out of the service report at military posts or stations from furlough or other absence from their commands, except desertion, the commanding officers thereof will notify the Adjutant General of the Army, giving all possible information obtainable from the men covering the period of absence, to what date, and where last paid, etc. Descriptive lists of such men will be furnished from this office, on receipt of which commanding officers will cause the men to be examined by a medical officer on the prescribed blank form provided for the purpose, as required in General Orders, No. 124, August 20, 1898, from this office. The declaration on the physical examination blank required of the person to be discharged will be completed before the medical examination is made, but the certificate of the company commander thereon will not be executed.

Commanding officers will act as mustering officers in such cases unless there is a mustering officer present, and will have four detachment muster-out rolls prepared for men belonging to the same regiment with the necessary discharge certificates, which latter will be delivered to the men with directions to proceed, if practicable, to the nearest paymaster for final payment, to whom two copies of the muster-out roll will be sent by *registered mail*, with the notification required by paragraph 150 of the Army Regulations.

If the station of the nearest paymaster is at a distance from the place of muster out the discharge certificates will be sent with the rolls, and the paymaster will make payment by check through the commanding officer. Quarters and subsistence will be furnished the men until final payment is made.

The third copy of the muster-out rolls, with the descriptive lists, will be forwarded to the Adjutant General of the Army, and the fourth copy to the Adjutant General of the State to which the organization belongs. Men of different regiments will not be mustered out on the same rolls.

II.—By direction of the Acting Secretary of War, soldiers of volunteer organizations ordered to be mustered out of the service who are undergoing sentences of confinement imposed by courts-martial, *but not dishonorably discharged*, will be paroled during the period for which the organization is on furlough, and the unexecuted parts of their sentences will stand as remitted on the date of the muster out of their companies, with which they will be discharged.

II. - By direction of the Acting Secretary of War, paragraphs 85 and 886 of the Regulations are amended to read as follows:

85. The expense of transporting the remains is payable from the appropriation for Army transportation, or from funds specially appropriated for that purpose; other expenses of burial are limited to \$75. If buried at the place of death, the fact will be reported to the Adjutant General of the Army.

886. Inspectors will, when practicable, cause the destruction in their presence of all property found to be worthless and which is without money value at or near the place of inspection, and will state in their reports that "the articles recommended to be destroyed have no money value at or near the post." The action of an inspector on property of this character will be final, and his report will be a valid voucher for the responsible officer. With the approval of the Acting Secretary of War, the following organization of troops is hereby announced:

A division composed of one cavalry and two infantry brigades, to be temporarily commanded by the senior officer on duty therewith until a permanent division commander is assigned by the President, as follows:

Cavalry brigade, composed of the 7th and 8th United States Cavalry, to be commanded by Brigadier General *L. H. Carpenter*, United States Volunteers.

These troops will be supplied with suitable clothing, camp and garrison equipage, especially conical wall tents, one to every twelve men, with board floors and stoves; also camp

GENERAL ORDERS,	}	HEADQUARTERS OF THE ARMY,
No. 155.		ADJUTANT GENERAL'S OFFICE,
		<i>Washington, September 27, 1898.</i>

I.—Paragraph I, General Orders, No. 86, July 2, 1898, from this office, is amended so as to read as follows:

I.—In section 7 of the Act "For the better organization of the line of the Army of the United States," approved April 26, 1898, it is provided "That in time of war every officer serving with troops operating against an enemy who shall exercise, under assignment in orders issued by competent authority, a command above that pertaining to his grade, shall be entitled to receive the pay and allowances of the grade appropriate to the command so exercised."

The Attorney General has held that this clause "was intended to apply to all instances where the troops of the United States are assembled in separate bodies, such as regiments, brigades, divisions, or corps, for the purpose of carrying on and bringing to a conclusion the war with Spain;" but that "all service in the Army at the present time is not to be considered as operating against an enemy. Troops and their officers on the western frontiers, performing the same service as garrisons which is requisite in time of peace, and in nowise considered a part of the Army assembled to carry on the war with Spain, would not be within the meaning of the Act."

II.—By direction of the Acting Secretary of War, paragraph II, General Orders, No. 139, War Department, Adjutant General's Office, September 7, 1898, is amended to read as follows:

General Orders, No. 130, August 29, 1898, from this office, is so far amended as to direct commissioned officers who belong

to organizations furloughed for sixty days to await orders for their own convenience for that period instead of granting them leave of absence.

H. C. CORBIN,
Adjutant General.

GENERAL ORDERS,	}	HEADQUARTERS OF THE ARMY,
No. 156.		ADJUTANT GENERAL'S OFFICE, <i>Washington, September 28, 1898.</i>

I.--The following order of the Acting Secretary of War is published for the information and guidance of all concerned:

Hereafter whenever any enlisted man of a volunteer regiment is promoted to be a commissioned officer he will be discharged as an enlisted man by the commanding officer of the regiment as of the date next preceding that of his muster in under his commission as an officer, and the date of such discharge reported by telegraph to the Adjutant General of the Army.

II.--Any soldier on furlough from New Orleans, Louisiana, or who may pass through that city for any purpose, should not be allowed to visit any camp or garrison until he has been detained under quarantine long enough to preclude any possibility of infection, owing to the fact that yellow fever is prevalent in that city, and in four counties of the State of Mississippi.

III.--By direction of the Acting Secretary of War, paragraph 891 of the Regulations is amended to read as follows:

891. The judge advocate of each department, or the officer acting as such, will, as soon as practicable after June 30 of each year, render to the Judge-Advocate General a report for the year terminating on that date, giving the number and character of cases tried by courts-martial in the department during the period. This report will separately classify the trials of officers and enlisted men, and show whether by general, garrison, or summary courts, the number of acquittals in

each class and the number of different men tried by inferior courts, and contain his recommendations and remarks touching the administration of military justice.

No. 160.		<i>Washington, October 5, 1898.</i>

By direction of the Secretary of War, the following circular from the Treasury Department, containing instructions to U. S. disbursing officers, published in General Orders, No. 53, August 25, 1897, War Department, Adjutant General's Office, is republished for the information and guidance of all concerned. Officers of the Army disbursing public funds will be held accountable for a strict compliance with its requirements.

TREASURY DEPARTMENT,
OFFICE OF THE SECRETARY,
Washington, D. C., August 14, 1897.

The following sections of the Revised Statutes are published for the information and guidance of all concerned:

"SECTION 3620. It shall be the duty of every disbursing officer having any public money intrusted to him for disbursement, to deposit the same with the Treasurer or some one of the Assistant Treasurers of the United States, and to draw for the same only as it may be required for payments to be made by him in pursuance of law (and draw for the same only in favor of the persons to whom payment is made); and all transfers from the Treasurer of the United States to a disbursing officer shall be by draft or warrant on the Treasury or an Assistant Treasurer of the United States. In places, however, where there is no Treasurer or Assistant Treasurer,

the Secretary of the Treasury may, when he deems it essential to the public interest, specially authorize in writing the deposit of such public money in any other public depository, or, in writing, authorize the same to be kept in any other manner, and under such rules and regulations as he may deem most safe and effectual to facilitate the payments to public creditors.

"SECTION 5488. Every disbursing officer of the United States who deposits any public money intrusted to him in any place or in any manner, except as authorized by law, or converts to his own use in any way whatever, or loans with or without interest, or for any purpose not prescribed by law withdraws from the Treasurer or any Assistant Treasurer, or any authorized depository, or for any purpose not prescribed by law transfers or applies any portion of the public money intrusted to him, is, in every such act, deemed guilty of an embezzlement of the money so deposited, converted, loaned, withdrawn, transferred, or applied; and shall be punished by imprisonment with hard labor for a term not less than one year nor more than ten years, or by a fine of not more than the amount embezzled or less than one thousand dollars, or by both such fine and imprisonment."

In accordance with the provisions of the above sections, any public money advanced to disbursing officers of the United States must be deposited immediately to their respective credits, with either the United States Treasurer, some Assistant Treasurer, or by special direction of the Secretary of the Treasury, with a national bank depository nearest or most convenient, except—

(1) Any disbursing officer of the War Department, specially authorized by the Secretary of War, when stationed on the extreme frontier or at places far remote from such depositories, may keep, at his own risk, such moneys as may be intrusted to him for disbursement.

(2) Any officer receiving money remitted to him upon specific estimates, may disburse it accordingly, without waiting to place it in a depository, provided the payments are due, and he prefers this method to that of drawing checks.

Any check drawn by a disbursing officer upon moneys thus deposited must be in favor of the party, by name, to whom the payment is to be made, and payable to "order," or "bearer," with these exceptions:

(1) To make payments of individual pensions, checks for which must be made payable to "order," (2) to make payments of amounts not exceeding twenty dollars, (3) to make payments at a distance from a depository, and (4) to make payments of fixed salaries due at a certain period; in either of which cases except the first, any disbursing officer may draw his check in favor of himself, or "order," or "bearer," for such amount as may be necessary for such payment, but in the last-named case the check must be drawn not more than two days before the salaries become due.

Any disbursing officer or agent drawing checks on moneys deposited to his official credit, must state on the face or back of each check the object or purpose to which the avails are to be applied, except upon checks issued in payment of individual pensions, the special form of such checks indicating sufficiently the character of disbursement. If the object or purpose for which any check of a public disbursing officer is drawn is not stated thereon, as required, or if any reason exists for suspecting fraud, the office or bank on which such check is drawn will refuse its payment.

Such statement may be made in brief form, but must clearly indicate the object of the expenditure, as, for instance, "pay," "pay roll," or "payment of troops," adding the fort or station; "purchase of subsistence" or other supplies; "on account of construction," mentioning the fortification or other public work for which the payment is made; "payments under \$20," etc.

Checks will not be returned to the drawer after their payment, but the depositary with whom the account is kept shall furnish the officer with a monthly statement of his deposit account.

Deposits to the credit of the Treasurer of the United States on account of repayment of disbursing funds must be made with the office or bank in which such funds are to the credit of the disbursing officer.

No allowance will be made to any disbursing officer for expenses charged for collecting money on checks.

Whenever any disbursing officer of the United States shall cease to act in that capacity he will at once inform the Secretary of the Treasury whether he has any public funds to his credit in any office or bank, and, if so, what checks, if any, he has drawn against the same, which are still outstanding and unpaid. Until satisfactory information of this character shall have been furnished, the whole amount of such moneys will be held to meet the payment of his checks properly payable therefrom.

In case of the death, resignation, or removal of any disbursing officer, checks previously drawn by him will be paid from the funds to his credit, unless such checks have been drawn more than four months before their presentation, or reasons exist for suspecting fraud. Any check previously drawn by him and not presented for payment within four months of its date will not be paid until its correctness shall have been attested by the Secretary or Assistant Secretary of the Treasury.

Every disbursing officer, when opening his first account, before issuing any checks, will furnish the depositary on whom checks are drawn with his official signature duly verified by some officer whose signature is known to the depositary.

For every deposit made by a disbursing officer, to his official credit, a receipt in form as below shall be given, setting forth its serial number and the place and date of issue; the title of each officer shall be expressed, and the title of the disbursing account shall also show for what branch of the public service the account is kept, as it is essential for the proper transaction of departmental business that accounts of moneys advanced from different bureaus to a disbursing officer serving in two or more distinct capacities be kept separate and distinct from each other, and be so reported to the Department both by the officer and the depositary, the receipt to be retained by the officer in whose favor it is issued.

No.——. Office of the U. S. (Assistant Treasurer or Depositary),
——, ——, 189——.

Received of ——, —— dollars, consisting of ——, to be placed to his credit as ——, and subject only to his check in that official capacity.

\$——. ——,
United States (Assistant Treasurer or Depositary).

These regulations are intended to supersede those of August 24, 1876.

L. J. GAGE,
Secretary.

The following order of the Secretary of War is published for the information and guidance of all concerned:

Leaves of absence granted to officers of the Army serving at stations beyond the limits of the United States, for the purpose of returning to this country, will be regarded as taking effect on the dates they reach the United States, respectively, and as terminating on the respective dates of their departure therefrom in returning to their commands. The dates of arrival in and departure from the United States will, in every case, be reported to the Adjutant General of the Army.

GENERAL ORDERS, } HEADQUARTERS OF THE ARMY,
 } ADJUTANT GENERAL'S OFFICE,
 No. 168. } *Washington, October 15, 1898.*

By direction of the Secretary of War, disbursing officers of the Subsistence Department are prohibited from paying commutation of rations at twenty-five cents per day on those furloughs (granted previous to orders for muster out) the periods of which cover days embraced in the thirty or sixty day periods of furloughs authorized by General Orders, No. 130, August 29, 1898, and paragraph III, General Orders, No. 148, September 19, 1898, from this office.

The commutation of rations due on all such previously granted furloughs will be paid by paymasters upon final discharge or muster out upon presentation of the furloughs by those to whom granted, care being taken not to allow double payments for the days (between the dates of such furloughs and the dates of discharge or muster out) which are covered by both furloughs; but paymasters will make no payments of commutation of rations on account of such previously

granted furloughs unless the furloughs themselves are produced. When payment is made, note thereof will be indelibly stamped by the paymaster on the furlough paper and the same filed with the muster-out roll or final statement. Amounts so paid will be refunded by the Subsistence Department on settlement of paymasters' accounts.

Furloughs of the above character not presented to paymasters for payment as above provided for, but which may be presented to them or to subsistence officers after muster out of companies to which the men belonged, will be forwarded to the Commissary General of Subsistence for settlement and payment.

GENERAL ORDERS,	}	HEADQUARTERS OF THE ARMY,
No. 178.		ADJUTANT GENERAL'S OFFICE,
		<i>Washington, November 8, 1898.</i>

I.—By direction of the Secretary of War, the provisions of General Orders, No. 58, May 31, 1898, from this office, under which the commander of an army corps or of a division or brigade acting independently of a corps is charged with the

full control of the transfer from the line, the enlistment, reenlistment, and discharge of members of the Hospital Corps of his command, with the detail of acting hospital stewards and the appointment of hospital stewards, are extended so that the commanding officers of military departments outside of the limits of the United States are charged with the same authority.

II.—By direction of the Secretary of War, paragraph 7, General Orders, No. 130, August 29, 1898, War Department, Adjutant General's Office, is revoked. In all matters pertaining to the muster out of volunteers where it may be necessary, oaths will hereafter be administered in accordance with the requirements of paragraph 683, Army Regulations.

III.—By direction of the Secretary of War, the following is published to the Army for the information and guidance of all concerned:

The purpose of the regimental hospital in field service is to furnish protection and care to the sick of the command while on a march or in the field, or to those temporarily sick while in camp of instruction. It is an emergency hospital in the one case and a detention hospital in the other, but is not intended for the treatment of the very ill, who in the event of a move would prove to be an incumbrance to the regiment. When cases are found to be serious in nature they should be promptly transferred to brigade or division hospitals, except where regiments are isolated, in which event the bed capacity may be increased as necessary, all of the sick being cared for and transfers made to general hospitals when ordered by proper authority.

Of enlisted personnel, there will be allowed, in addition to the three regimental hospital stewards now authorized by law—

One acting hospital steward.

Six privates of the Hospital Corps as attendants and orderlies.

One private of the Hospital Corps as cook.

One private for each ambulance and wagon.

If members of the Hospital Corps can not be obtained as drivers, the Quartermaster's Department will hire civilians for that purpose.

The tentage will consist of—

Four hospital tents (two to be used as wards, one as dispensary and storage, and one for the mess).

One wall tent for noncommissioned officers.

Three common tents for privates.

One common tent for cook tent.

The allowance of ambulances and mounts is fixed in General Orders, No. 76, June 22, 1898, from this office, and two four-horse wagons will be furnished for each hospital. The allowance of the medical supplies will be fixed by the Surgeon General.

Inspectors will give particular attention to the condition of the regimental hospitals and note any departures from their organization as published in this order.

Adjutant General.

By direction of the Secretary of War, paragraphs 533, 633, 709 (amended by General Orders, No. 10, of 1897), 716, and 878 of the Regulations are amended to read as follows:

533. Guaranties, signed by two responsible parties, or by a qualified surety company, will be required to accompany proposals whenever, in the opinion of the officer authorized to make the contract, they are necessary to protect the public interests, and when so required, no proposal unaccompanied by a guaranty, made in manner and form as directed in the advertisement or specifications, will be considered.

633. Every voucher in support of a payment for supplies, or for services other than by the day or month, whether it be made pursuant to a formally prepared contract, an accepted bid, or a purchase without advertising (unless it comes within the excepted cases provided for in the following paragraph), must have attached to it an original bill furnished by the creditor, dated and signed by him or his authorized representative, giving his place of business or residence, and stating (if for supplies furnished) the date of the purchase, the

quantity and price of each article, and the amount or (if for services other than by the day or month) the character of the services, the date or dates on which rendered, and the amount. A voucher so accompanied will be made out in favor of the creditor, giving his address, and may state the account in general terms, with the aggregate amount only extended, and the words "as per bill hereto attached," or words of like import, added. Where a purchase under an accepted bid after public notice is made in the Quartermaster's or Subsistence Department, the voucher, besides being subject to the foregoing requirements, will be accompanied by a copy of the public notice, the accepted bid, and a copy of the letter accepting the bid, and must contain a certificate that the award was made to the lowest responsible bidder for the best and most suitable articles, and that the needs of the service required the purchase to be made in the manner indicated by the public notice. Where papers relating to two or more vouchers are required to accompany accounts, they must be filed with the first voucher paid, and reference thereto made on the other vouchers. A voucher for services by the day or month must state the nature of the service, the inclusive dates of service, the time for which payment is made, the rate of pay, and the amount. All original bills when practicable will be rendered in the English language, but if rendered in a foreign language a translation of the same must accompany the bill attached to the voucher.

709. A board of survey will be called by the commanding officer of the regiment, post, or station. Such boards may, however, be convened by the commanding officer of a department, an army corps, division, or brigade. It will be composed of three officers, exclusive of the commanding officer and those who are interested, if that number be present for duty; otherwise, of as many as are so present, exclusive of the commanding and interested officers; or if none but the commanding officer and interested officers be present for duty, then of the commanding officer. When only the responsible or interested officer is present, he will not constitute himself a board of survey, but will furnish the next higher commander authorized to convene such boards his certificate of facts and circumstances, supported by affidavits of enlisted men or

others who are cognizant thereof. Should the case thus presented not be considered satisfactory, or in a case in which only interested officers with opposing interests are present for duty at the post or station, the next higher commander authorized to convene boards of survey may make the necessary investigation. In cases where the property in question has been previously acted upon by a board of survey, the order convening the board will so state and require that the proceedings of any previous board or boards be considered.

716. Should the proceedings be disapproved by the convening authority, or should the value of the property submitted for survey, or the loss or damage to be inquired into exceed \$500, or, whatever the amount involved, should the officer pecuniarily interested request it, the proceedings in triplicate will be forwarded to the next higher commander authorized by paragraph 709 to convene boards of survey for review, and with his action are complete. One copy will then be filed at his headquarters and the others sent to the accountable officer. But all proceedings of boards of survey, whatever their nature or the amounts involved, are subject on call to the approval or disapproval of the next higher commander authorized to convene such boards or such other action on his part as the merits of the case or the interests of the Government may, in his opinion, require.

878. Inspections having in view the condemnation of property will be made by inspectors general, acting inspectors general, or officers specially designated by the commander of a department, the commander of an army in the field, or higher authority.

GENERAL ORDERS,	}	HEADQUARTERS OF THE ARMY,
No. 181.		ADJUTANT GENERAL'S OFFICE,
		<i>Washington, November 26, 1898.</i>

I..The Court of Inquiry, of which Lieutenant Colonel TULLY MCCREA, 5th U. S. Artillery, is president, instituted by direction of the Secretary of War at the request of 1st Lieutenant *Jeremiah G. Fennessey*, Regimental Quartermaster, 9th Massachusetts Volunteer Infantry, in Special Orders,

No. 249 October 21, 1898, from this office, to investigate certain allegations made in the public press of Boston as to the conduct of Lieutenant *Fennessey* between July 1, 1898, and September 1, 1898, having considered the evidence in connection with the case, has reported its finding and opinion as hereinafter stated.

FINDING.

1. That the 9th Massachusetts Volunteer Infantry was disembarked from the auxiliary cruiser *Harvard* at Siboney, Cuba, on July 1, 1898.

2. That 1st Lieutenant *Jeremiah G. Fennessey*, the regimental quartermaster, was ordered by the colonel of the regiment to remain on the *Harvard* with a detail of men until the regimental stores were unloaded.

3. That he used all diligence to get these stores unloaded on the 2d and 3d of July until the *Harvard* was signaled by the flagship to pursue Cervera's fleet.

4. That the stores could not be landed on the beach owing to the high surf, and because the captain of the *Harvard*, after three boats had been damaged, refused to land any more stores there.

5. That thereafter the stores were transferred to transport No. 2 (the *Santiago*).

6. That about 10 a. m., July 3d, the *Harvard* was signaled by the flagship of the squadron to pursue Cervera's fleet, which it did, leaving Siboney, and that Lieutenant *Fennessey* and his detail were perforce taken with the *Harvard* in this pursuit.

7. That the *Harvard* returned to Siboney on the night of July 3d with 672 Spanish prisoners on board.

8. That Lieutenant *Fennessey* and his detail of the 9th Massachusetts Infantry were, owing to the inadequacy of the marine guard, forced by the commanding officer of the *Harvard* to guard the Spanish prisoners.

9. That from this time until July 8th, when Lieutenant *Fennessey* and his detail were landed at Siboney, no stores could be landed.

10. That on July 8th Lieutenant *Fennessey* and his detail were landed on the beach at Siboney, and the *Harvard* proceeded north with the Spanish prisoners, taking the stores remaining on board.

11. That the stores that the Harvard took away from Siboney were never landed in Cuba, and to this day the 9th Regiment has never received them.

12. That on landing on the beach at Siboney, Lieutenant *Fennessey*'s detail was sent to the front that afternoon.

13. That on landing, Lieutenant *Fennessey* for the first time learned that the blanket rolls and officers' personal baggage had been left behind at Siboney.

14. That Lieutenant *Fennessey* remained at Siboney until July 18th, and that he made every reasonable effort to get the blanket rolls and baggage transported to the front.

15. That on July 18th, having succeeded in getting transportation for the last of said property, he himself proceeded to the front and reported to his regimental commander.

16. That Lieutenant *Fennessey* used reasonable diligence in finding the stores that were landed in Santiago, and in transporting them to his regiment.

17. That the suffering of the 9th Massachusetts Volunteer Infantry through lack of proper rations, blanket rolls, and company property was not the fault of Lieutenant *Fennessey*, but due to force of circumstances over which he had no control.

18. That Lieutenant *Fennessey* performed the duties of regimental quartermaster during the campaign in Cuba as well as any officer of the same experience could have done under the same difficult circumstances.

19. That this Court of Inquiry has received the evidence of every available officer, enlisted man, and civilian who could possibly give any evidence to prove the allegations made by the public press of Boston against Lieutenant *Fennessey*.

OPINION.

The Court is of the opinion that not a particle of evidence has been adduced which in the slightest degree shows cowardice on the part of Lieutenant *Fennessey*.

That there is no evidence that he was lazy, incompetent, or neglected any duty which he was required to perform.

That the allegations made in the public press of Boston, referred to the Court of Inquiry for investigation, are false, unfounded, and malicious.

That Captain *George F. H. Murray*, Company B; Captain *John H. Dunn*, Company I; 2d Lieutenant *Michael J. Desmond*, Company B, and 2d Lieutenant *James A. Cully*, Company I, all of the 9th Regiment, Massachusetts Volunteer Infantry, are subjects for military discipline.

II..The following are the orders of the War Department in the case:

The proceedings, findings, and opinion of the Court of Inquiry in the case of 1st Lieutenant *Jeremiah G. Fennessey*, Regimental Quartermaster, 9th Massachusetts Volunteer Infantry, are approved.

White cotton undershirts, white muslin shirts, summer coats and trousers, and knit wool drawers will be supplied upon application to the Quartermaster's Department. They will be charged at cost price, but are not computed in the soldier's annual money allowance.

White brassards, issued to privates of the Hospital Corps, will be charged at cost price.

The insignia for first-class gunners as well as service chevrons (peace or war) are issued without charge.

Overcoats made of fur or other suitable warm material will be issued and accounted for in the manner prescribed by Par. 1191 of the Regulations.

Chief musicians have the same allowance of clothing as Quartermaster Sergeants. (See Section 1279 of the Revised Statutes.)

Post Quartermaster Sergeants have the same allowance as Ordnance Sergeants. (Act of Congress approved July 5, 1894.)

Hospital Stewards have the same allowance as Ordnance Sergeants. (Act of Congress approved March 1, 1887.)

Acting Hospital Stewards and privates of the Hospital Corps have the same allowance as a corporal of the arm of service with which on duty. (Act of Congress approved March 1, 1887.)

Indians employed as scouts, while in service, will receive the pay and allowances of Cavalry soldiers. (Par. 481 of the Regulations.)

The money allowance for clothing for the first year of each enlistment is allotted by half years, and the allowance for the second, third, fourth, and fifth years enlistment should be divided by two to obtain the semiannual allowance. There is no monthly allowance. The money-allowance tables give the daily proportion, estimating 365 days to the year, which should be used only for fractional periods less than the half year.

Each enlisted man is allowed, for the first year of every enlistment, the sum of five dollars for the purpose of having his clothing altered and fitted to his person. This sum is included in the first six months of the first year's allowance as published in the accompanying tables.

The annual money allowance of band sergeants and band musicians (authorized by Par. 245 of the Regulations) will be the same as that for company sergeants and privates of the respective arms from which they are detailed, and such articles of band uniforms, including music pouches, as do not form part of their annual clothing allowance to which they are authorized, may be issued, but not charged to them, except in case of loss or damage. The articles thus issued without charge will, however, remain the property of the United States.

A soldier may, when necessary, be relieved from ordinary military duty to make, repair, or alter uniforms. The post council will fix the rates to be charged, which will not exceed the cost of doing such work at the clothing depot, and company commanders will cause to be deducted from the pay of enlisted men and turned over to the proper party the amount properly due therefor. (Par. 263 of the Regulations.)

Enlisted men who, upon their enlistment, are furnished with overcoats having different cape linings than the arm of service to which they are finally assigned, will be furnished, without cost, with new linings, and the sum of \$1 each for inserting said linings will be defrayed by the Quartermaster's Department upon receipt of estimate of funds.

In no case should the Quartermaster's Department be put to the expense of changing any part of the uniform by reason of *voluntary* transfer of men from one arm of the service to another.

The gratuitous issue of one cord and tassel with each campaign hat drawn by the enlisted men of the Army is authorized until the stock of those now on hand at posts or at the general depots of the Quartermaster's Department shall have become exhausted. (Decision Sec. War, Feb. 25, 1887.)

The issue of overcoat capes to enlisted men, separately from the overcoat, is not authorized. (Decision Sec. War. Letter Dec. 3, 1885.)

Each prisoner, upon his release from confinement under a court-martial sentence, involving dishonorable discharge, is entitled to a suit of citizen's outer clothing, at a cost of not to exceed ten dollars. (Act of Congress approved March 16, 1896.)

From 60 to 65 men's quota no allowance is made for increase, except for vegetable dishes.

The method of computing the allowance is as follows for a quarter :

For 60 men, 5 per cent of annual allowance of china and glassware, including individual and general articles.

For 70 men the allowance is that for 60 men plus $\frac{1}{3}$, with addition of—

- 1 meat plate ;
- 1 water pitcher ;
- 6 vegetable dishes ;
- 2 saltcellars ;
- 2 pepper boxes ;
- 2 sirup pitchers ;
- 1 pickle dish ;
- 2 sugar bowls ;
- 2 gravy boats ;
- 2 mustard pots.

For any increase over 65 men no allowance is provided for except that stated in Circular 3, viz : "proportionate increase according to strength of organization." In this connection the tables of allowance are based on current General Orders, which provide for increase of enlisted strength of organizations.

The maximum authorized strength is taken as the basis on which to compute allowance.

Especial attention is invited to provisions of Par. II, General Orders 51, A. G. O., 1896.

GENERAL ORDERS,	}	HEADQUARTERS OF THE ARMY,
No. 194.		ADJUTANT GENERAL'S OFFICE,
		<i>Washington, December 31, 1898.</i>

By direction of the Secretary of War, the following is published for the information and guidance of all concerned:

A sanitary inspection of all military camps, including regimental, brigade, and division hospitals, will hereafter be made on Saturday of each week, and on the last Saturday of each month a medical inspection will also be made. A similar inspection will be made on the last day of each month of all military posts and general hospitals.

The senior medical officer present will make these inspections for detached commands, military posts, and general hospitals; brigade surgeons will make them for troops that are organized into and serving as brigades, and when special occasion requires and the general commanding orders, division, corps, or department chief surgeons will make them.

A report of these inspections with such recommendations as are deemed proper will be made to the commanding officer, who will return it after indorsing thereon his views and action or his objections. The medical officer will then forward the report through military channels to the Surgeon General of the Army. All commanding officers are directed to facilitate the prompt transmission of these reports to their proper destination.

The sanitary inspection will consist of an examination of the quarters, their cubic air space per man, space between tents, ventilation, lighting, drainage, and general police; of the clothing and bedding, its sufficiency, adaptability, and general condition; of the food supply, its quality, variety, and quantity, its preparation, cooking, and method of serving; of the water supply, its quality and quantity, for cooking, bathing, and laundry purposes; of the disposal of excreta, by what methods, character of disinfection and cleanliness; of the habits, exercise, and recreations of the men, and of the site of the camp, hospital, or post with reference to its healthfulness.

The medical inspection will include an examination of the records of the hospitals as to their completeness and accuracy and the promptness in forwarding them; of the medical, surgical, and hospital supplies; their quality, quantity, condition, whether properly used, and if timely requisitions are made to avoid deficiencies; of the food supply of the hospital, especially with reference to light diet for the sick; of the management of the diet kitchens; of the methods of day and night messing for attendants, male and female; of the public funds provided by existing regulations for the purchase of food; of the tentage, wheel transportation, and other articles furnished to the hospital by the Quartermaster's Department, their amount, usage and condition as to repairs; of public animals, their number and condition.

Inquiry will be made into the character and causes of prevailing diseases and what steps have been taken to prevent them; into the attention to duty of medical officers, contract surgeons, enlisted men, and female nurses, and into the discipline, instruction, and efficiency of the Hospital Corps.

Recommendations will be made for the correction of unsanitary conditions or of abuses that may exist, and note made on the next report of the action that has been taken regarding them.

Special report will be made of professional incompetency, neglect of duty or general inefficiency of any medical officers.

Forms for the inspection reports will be supplied by the Surgeon General.

The following decisions, rulings, etc., have been made, and are published to the Army for the information of all concerned:

1..DISCRETION REGARDING TRIAL BY SUMMARY COURT.—Paragraph 7, Circular, No. 13, Adjutant General's Office, December 5, 1891, reads as follows:

The fact that the number of trials by inferior court-martial has greatly increased since the establishment of the summary court indicates that officers of the Army have the impression that under the present system they must bring every dereliction of duty before a court for trial, and that they are allowed no discretion in the matter. This is a mistake. Their discretion is the same now as it was under the garrison court system, and they are not obliged to bring cases before the summary court which they believe ought to be disposed of with an admonition or the withholding of privileges or indulgences. The extent of the exercise of this discretion, within these limits, is subject to the control of the commanding officer.

In accordance with the spirit of the foregoing, company commanders are authorized, subject to the control of the commanding officer of the post, to dispose of cases of derelictions of duty in their commands which would be within the jurisdiction of inferior courts-martial by requiring extra tours of fatigue, unless the soldier concerned demands a trial. This right to demand a trial must be made known to him.—[*Orders Sec. War, Oct. 14, 97—63734 A. G. O., 97.*]

2..SALES TO OFFICERS ON THE RETIRED LIST.—The provisions of paragraph 1020 of the Regulations, respecting sales to officers by the Quartermaster's Department of oil, lamps, wicks, and chimneys, are construed to apply to retired officers of the Army.—[*Decision Sec. War, Mar. 3, 98—69805 A. G. O., 98.*]

By direction of the Secretary of War, the following is published to the Army for the information and guidance of all concerned:

TREASURY DEPARTMENT,
OFFICE OF THE COMPTROLLER OF THE TREASURY,
February 12, 1898.

Any officer of the Army traveling under orders and using a conveyance upon which transportation and subsistence are furnished or paid for by the Government, is not entitled to mileage at four cents per mile while traveling on such conveyance.

L. P. MITCHELL,
Assistant Comptroller.

Under the above decision travel performed by conveyance, the ticket fare of which includes meals and stateroom without additional charge, precludes the payment of mileage by the Pay Department, and the distance traveled by such conveyance will be excluded in the computation of mileage for any journey involving such travel.

The act making appropriations for the support of the Army for the year ending June 30, 1899, provides for the payment of mileage at seven cents per mile, with the requirement that for travel over free, bond-aided Pacific, or fifty per cent railroads, transportation requests shall be furnished by the Quartermaster's Department, and that the transportation so furnished shall be a charge against the officer's mileage account, to be deducted at rates paid by the general public. This takes effect July 1, 1898.

Mileage accounts, therefore, should be made out for the authorized distance at the prescribed rate per mile, and from the amount thus ascertained will be deducted the price of a ticket over that portion of any route over which transportation may have been furnished.

2.—**TRANSFERS OF FUNDS.**—The transfer of public funds from the credit of one United States disbursing officer to another by means of a United States disbursing officer's check (A. R. 594) is permissible *only* on the books of the *same* office or bank. Transfers of funds pertaining to the military service from one office or bank to another office or bank should be made only by the Secretary of the Treasury, upon the recommendation of the Secretary of War, and then only to like credit—not from one disbursing officer to another.

A balance of appropriation to the credit of a disbursing officer which is no longer needed for disbursement by him,

but which it is desired shall be placed to the credit of another officer in a distant depository, should be deposited by the first-mentioned officer to the credit of the Treasurer of the United States, as a repayment to the appropriation, and a requisition should be made by the Secretary of War for the placing by the Treasury Department of an equivalent amount to the credit of the other officer in the distant depository.—[*Ruling Sec. 3..FORFEITURE OF PAY AND ALLOWANCES.—By the third subdivision of Article III of the Executive Order of March 30, 1898, published in General Orders, No. 16, A. G. O., 1898, it is provided that, in consideration of previous convictions, the limit of punishment shall be “dishonorable discharge, forfeiture of all pay and allowances, and confinement at hard labor for three months.” Such a sentence means, so far as the forfeiture of pay and allowances is concerned, forfeiture of pay and allowances due at the date of the discharge. A court-martial, when it has the power to award this sentence, may award a lesser one, but in doing so, can not award confinement and forfeiture greater in amount than confinement for three months and forfeiture or pay due, with such substitution as the court-martial may see fit to make under Article VII of the Executive Order of March 30, 1898.—[*Decision Asst. POST OFFICE DEPARTMENT,
FIRST ASSISTANT POSTMASTER GENERAL,
DIVISION OF CORRESPONDENCE,
Washington, May 24, 1898.

The Honorable THE SECRETARY OF WAR.

SIR: I have the honor to return herewith your reference, dated May 20, and mailed May 23 at 1.30 p. m., of a telegram from General Shafter in regard to the franking of letters mailed by soldiers in the field. The Act of Congress approved March 3, 1879, contains the following provision:

"The Postmaster General may, however, provide, by regulation, for transmitting unpaid and duly certified letters of soldiers, sailors, and marines in the service of the United States to their destination, to be paid on delivery."

Under the provisions of the above act the Postmaster General has issued the following regulation:

"Letters written by officers, commissioned or noncommissioned, and privates in the military, naval, or marine service of the United States, to be transmitted unpaid must be plainly marked 'Soldier's Letter,' 'Sailor's Letter,' or 'Marine's Letter,' as the case may be, and signed thereunder with his name and official designation by a field or staff officer, post or detachment commander to whose command the soldier belongs, or by a surgeon or chaplain at a hospital where he may be; and in the navy and marine service, by the officer in command of the vessel, or surgeon on board, or officer commanding naval hospital or detachment on shore.

Letters so certified will be forwarded charged with postage due at single rates only, to be collected on delivery."

I presume that this will cover the inquiry made by General Shafter.

Very respectfully,

PERRY S. HEATH,
First Assistant Postmaster General.

1.—EXTRA DUTY PAY.—The provisions of section 6 of the act approved April 26, 1898 (General Orders, No. 29, Adjutant General's Office, April 29, 1898), abolishing extra duty pay in time of war, applies to enlisted men in every department of the Army, and, as war existed when the act was passed, enlisted men ceased to be entitled to extra duty pay upon the date of its approval.—[85677 A. G. O., 98.]

2.—BATTALION COMMANDERS.—As the command of a regiment, in the absence of field officers, by force of law passes directly to the senior captain on duty therewith, it is deemed proper that the permanent command of battalions should be vested in the senior officers of the regiment present, next in rank to the regimental commander.—[Decision Sec. War, May 24, 98—79808 A. G. O.]

3.—UNIFORM.—The insignia of rank prescribed for the blouse for all commissioned officers authorized by paragraph 2, General Orders, No. 39, May 9, 1898, from this office, will be of the same material and design as now prescribed for officers' undress coats in the Regulations and Decisions pertaining to the Uniform of the Army of the United States. The coat of arms and the number of regiment will be of gold embroidery or gold or gilt metal.

The fair or russet leather shoes or boots, authorized by the above-mentioned order for mounted officers, will be of the

II.—The following decision has been made, and is published to the Army for the information of all concerned:

**EXTRA PAY FOR EXERCISING COMMAND ABOVE THAT PERTAINING
TO AN OFFICER'S GRADE.**

Under section 7 of the act of Congress approved April 26, 1898, an officer is not entitled to the pay and allowances of the grade appropriate to a command exercised by him above that pertaining to his grade, except when "serving with troops operating against an enemy" and exercising the command of the higher grade "under assignment in orders issued by competent authority." It is held that troops serving within the limits of the United States at a time when there is no foreign army within said limits are not operating against an enemy, notwithstanding the existence of war conditions. For the purpose of restricting assignments to command under this section to "competent authority," it is decided that such authority can be exercised only by the Secretary of War, or by the Commanding General of an Army "operating against an enemy."—*[Decision Sec. By direction of the Secretary of War, the following is published for the information and guidance of all concerned:

The terms of paragraph 2, Circular 5, Headquarters of the Army, Adjutant General's Office, April 4, 1896, are modified as follows:

When gun carriages and guns are to be assembled or mounted in sea-coast fortifications, they shall be subject to the inspection of an officer of the Ordnance Department both during process of erection and after its completion, in order to insure that all parts are correctly assembled and in proper working order. Such officer of the Ordnance Department shall, under instructions from the Chief of Ordnance, take all measures necessary, including, if deemed desirable, the firing of the piece, to give assurance of the perfect serviceability of the armament before it shall be turned over for use.

When engineer or artillery officers are about to commence work of erection herein referred to, they will notify the Chief of Ordnance, who will, if in his opinion it is necessary, designate an officer to place himself in communication with the engineer or artillery officer with a view to being present at the proper time and with proper assistance and appliances for the performance of the duty hereby devolved upon him.

Installed armament shall be subject at any time to the inspection of ordnance officers, to be designated by the Chief of Ordnance, to see that it is in efficient condition for use, and to place it in such condition if it shall not be so. Department commanders will instruct commanding officers to furnish such assistance as may be necessary to carry out the inspections and to perform necessary work on the armament.

1..TERMINATION OF STATUS OF TEMPORARY DUTY IN CASES OF OFFICERS ORDERED TO THE FIELD.—In the cases of officers who were on a status of “temporary duty” prior to the declaration of war, that status ceased, and changed to one of duty (not temporary), in the cases of all officers on duty with troops in the field, on April 21, 1898, the date from which war was declared to exist by the act of Congress approved April 25, 1898.—[*Decision Sec. DETAIL OF OFFICERS OF THE REGULAR ARMY ON COURTS-MARTIAL FOR THE TRIAL OF VOLUNTEERS.—As the act “To provide for temporarily increasing the military establishment of the United States in time of war,” approved April 22, 1898, declares that the Army of the United States, in time of war, shall consist of both the Regular Army and the Volunteer Army, it can not be held that the Volunteer Army is, with reference to the Regular Army, “other forces,” within the meaning of the 77th Article of War, but regular

officers may now sit on courts-martial for the trial of volunteer officers or soldiers.

II.—The following recommendation of the Surgeon General of the Army, respecting the examination of medical officers appointed to fill vacancies in volunteer regiments already mustered into the service of the United States, is approved by the Secretary of War, and, by his direction, is published for the information and guidance of all concerned:

In my opinion when appointed by the governor of a State to fill a vacancy in a regiment, the physician appointed should be examined by a board of three physicians appointed by the governor and without expense to the United States. Owing to the number of incorrect and incomplete final statements daily presented to paymasters for settlement, it is apparent that the obligations of officers issuing such statements are not fully understood, and the result is great inconvenience to discharged soldiers, who are obliged to return to

their late commanding officers to have necessary corrections made, and liability of paymasters to overpay, when the account of the soldier is not fully and properly stated.

In order that there may be uniformity in the issue of final statements, the following instructions, compiled from the Army Regulations, will be strictly observed.

"It should be borne in mind that overpayments caused by erroneous final statements will be charged against the officer who signed the final statements."

Notification of discharge.

(Par. 150, A. R.)

The officer who prepares the final statement of a soldier will, at least one day before the discharge takes effect, send by mail to the paymaster to whom the soldier may wish to apply for payment a notification in his own handwriting, in form as follows:

"Major ———, Paymaster, U. S. Army,
"Washington.

"SIR: I have the honor to advise you that Private ——— will be discharged the service of the United States on ———, 1898, by reason of ———." (Here state the reason.)

"The soldier was last paid to ———, 1898, and has pay due him from that date to date of discharge.

"There is due him for clothing not drawn in kind, \$———," or "He is indebted to the United States for clothing overdrawn, \$———. He is indebted to the United States for C. & G. E., \$———. For court-martial forfeiture, \$———.

"The soldier is (or is not, as the case may be) entitled to traveling allowances.

"His signature appears below.

"(Soldier's signature:)

"Very respectfully,

—————

—————,
"Com'g Co. ——— Regt. ——— Vols."

Soldiers are discharged for the following reasons.

(Par. 140, A. R., and G. O., No. 100, A. G. O., 1898.)

1. By order of the President or the Secretary of War.
2. By sentence of a general court-martial.
3. On surgeon's certificate of disability by direction of the commander of a territorial department or army in the field. Department and corps commanders are authorized to order discharge on certificates of disability, such orders to be carried out by the regimental, independent battalion, battery, or detachment commander, as the case may be, and the final statements should show the authority for discharge, and whether or not the disability was caused by the soldier's own misconduct. The requirements of G. O., No. 100, A. G. O., 1898, should be carefully observed.
4. In compliance with an order of one of the United States courts, or a justice or judge thereof, or on a writ of habeas corpus.
5. By expiration of term of service.

Under the head of "Remarks" the notation, "Service honest and faithful," or "Service not honest and faithful," as the case may be, must appear.

Travel-pay is forfeited.

1. By dishonorable discharge, per sentence of court-martial.
 2. When soldier is discharged as a minor, or for other cause involving fraud on his part in the enlistment.
 3. When, at date of discharge, the soldier is in the hands of civil authorities and undergoing imprisonment.
 4. When discharged before expiration of term of enlistment through fault of his.
 5. When discharged by order of the Secretary of War, or by corps or department commander, for disability caused by his own misconduct.
 6. When discharged by way of favor, as, "to enable him to accept a commission."
- If for any of the above causes the soldier is not entitled to traveling allowances, the notation, "not entitled to traveling allowances," must appear, and the authority for the same must be stated.

Clothing account.

Settlement must be made by the company commander and the balance "due the United States," or "due the soldier," must be stated.

In cases where clothing has been issued by the State authorities the following remark will be made on the final statements: "In the settlement for clothing is included the sum of \$——, the total value of articles issued him by the State." In cases where no clothing was issued by the State a remark to that effect will be made.

By direction of the Assistant Secretary of War, the following instructions to paymasters for the payment of troops mustered out of the service is published for the information and guidance of all concerned:

Paymasters engaged in paying mustered-out men will endeavor to make such payments as complete as possible, both with regard to settling all arrears, of whatever nature, due the soldier, and paying every one appearing on the rolls as entitled to pay; at the same time exercising the greatest care to avoid overpayments, as such can not, in all probability, be recovered, and the loss will fall upon the paymaster.

They will keep the rolls open as long as possible, so as to include all men not present at the general payment, but who appear afterwards, either in person or by attorney, before the rolls are finally closed.

Credits on the rolls.

Items of credit to the soldiers, likely to appear on the rolls, are—

PAY from date of last payment to include the date of muster out.

ARREARS OF PAY due from date of enrollment to date of muster-in to the service, in which case certificates should be required that the men have not been paid for the same time by the State.

CLOTHING.—Under this head, balances only should be stated: "Due the United States," or "Due the soldier."

A statement that the soldier has drawn, since his enlistment, clothing to the value of ——— dollars will not be accepted; that is to say, the statement of the balance due the United States or due the soldier must not be left for the paymaster to determine.

TRAVEL ALLOWANCES.—Officers will be entitled to one day's pay for every twenty miles of travel from place of muster out to place of enrollment. Enlisted men will be entitled to the same, and to subsistence at the rate of thirty cents per day for every twenty miles traveled as above. Fractions of a day, less than one-half (10 miles), will not be considered.

For a distance equal to half a day a full day's pay will be allowed.

Certificates of nonindebtedness.

Officers, before receiving final payment, must satisfy the paymaster that they are not indebted to the United States on any account whatever. Officers who have at any time been responsible for public property must obtain certificates of non-indebtedness from the Quartermaster General, Commissary General, Surgeon General, Chief of Ordnance of the Army, and Chief Signal Officer, and from the Chief of the Division of Bookkeeping and Warrants, Secretary's Office, Treasury Department, and all officers must obtain such certificates from the Paymaster General of the Army.

1..PAY OF STAFF OFFICERS OF CORPS, DIVISION AND BRIGADE COMMANDERS.—Section 10 of the act approved April 22, 1898, provides that the staff officers therein authorized “for the corps, division and brigade commanders may be appointed by

the President * * * or may be assigned by him. in his discretion, from officers of the Army or Volunteer Army, or the militia in the service of the United States." No officers having been assigned by the President as staff officers for the corps, division and brigade commanders, officers who are or have been serving in such positions are entitled to receive only the pay of the grades to which they have been commissioned, respectively. [*Decision Sec. War, Aug. 19, 98.*]

2.--EXTRA PAY TO OFFICERS FOR EXERCISING COMMAND ABOVE THAT OF THEIR ACTUAL GRADES.—The decision of the Secretary of War of June 10, 1898, published in Circular, No. 18, June 15, 1898, from Headquarters of the Army, Adjutant General's Office, is amended to read as follows:

To entitle an officer to the pay of a grade above that actually held by him, under section 7 of the act of Congress approved April 26, 1898, he must be assigned, in orders issued by competent authority, to a command appropriate to such higher grade of troops operating against an enemy.

As no assignments by competent authority have been made under this law of staff officers or of officers to perform staff duties authorizing them to *exercise command*, and as such assignment is necessary to entitle any officer to receive the pay and allowances of a grade higher than that actually held, no officer who has been assigned or detailed to staff duties is entitled to receive pay and allowances as of any grade other than that to which he has been actually commissioned.—[*General Orders, No. 86, Hdqrs. Enlisted men of the Regular and Volunteer Army who desire to procure a discharge from the United States service should address a letter to the *Adjutant General of the Army*, setting forth the reasons upon which they base their applications, and hand or mail it to the captain of their company, who in turn is required to forward it through regimental, brigade, and division headquarters *with his recommendation*. *Applications that do not come up in this manner will not be entertained.*

All applications must be forwarded immediately, approved or disapproved, as provided in A. R. 765.

ADJUTANT GENERAL'S OFFICE,

I..By direction of the Secretary of War, the following is published for the information of all concerned:

The indorsement required by General Orders, No. 147, September 17, 1898, from this office, pursuant to paragraph 836 of the Regulations, on the enlistment papers of men who have served in the volunteer army and subsequently enlist in the Regular Army, results in giving such soldiers credit on the records of the Department for time actually served in the volunteer army; but the term of enlistment or reenlistment in the Regular Army is not shortened by reason of their volunteer service. They begin a new enlistment in the Regular Army for the full term of three years, and their clothing allowance likewise begins at the first year's rates. The principal advantages, however, accrue to those who reenlist in the Regular Army *within three months from date of discharge from the volunteer army*. In their cases the time actually served in the volunteers is added to the time served in the

Regular Army in computing the soldier's service pay, from time to time. For example.

Suppose John Smith to have served four months in the volunteer army and within three months after discharge therefrom to have reenlisted in the Regular Army, serving as a private. He would complete two years' continuous service upon serving one year and eight months in the Regular Army (with *pay proper* at \$13 per month). He would then enter upon the third year of continuous service, during which he would be entitled to \$14 per month; with the expiration of two years and eight months of his new enlistment he would complete three years' continuous service and enter upon the fourth year, entitling him to \$15 per month. After serving four months in this fourth year his three years' term of enlistment would expire; should he again reenlist within three months from the date of discharge the first eight months of such enlistment would complete his fourth year of continuous service at \$15 per month. During the next year—the fifth year of continuous service—he would draw \$16 per month and after its close would become entitled to another \$2 per month for five years continuous service, *i. e.* \$18 per month. Each subsequent period of five years' continuous service would entitle him to \$1 per month additional.

To the rates of pay named above 20 percentum of the *pay proper* is to be added in time of war. In the case of a private this would be \$2.60 per month.

The pay proper for the noncommissioned grades is given in the U. S. Army Recruiting Circular, dated April 27, 1898, and is subject to like increase for continuous service.

II..By direction of the Secretary of War, the following is published for the information of all concerned:

Commanding officers of regiments serving in the field and the commanders of divisions and of separate brigades have the same power and authority for conveying and acting upon Boards of Survey as is vested in commanders of posts and departments by Army Regulations.

Privates of the Hospital Corps, U. S. Army, who have been transferred from volunteer regiments which are to be mustered out of the service, will be discharged, if they so request, upon the day on which their former regiment is mustered out, providing that their service has been honest and faithful. The names of such men will be forwarded by the surgeons commanding hospitals and ambulance companies through military channels to the Adjutant General with as little delay as practicable. Applications for discharge of men of the Hospital Corps who enlisted in that corps, or who were transferred from regiments still in service, will not be approved except under extraordinary circumstances. In forwarding all applications for discharge, surgeons will see that the date of enlistment or of transfer to the Hospital Corps is correctly stated, with character of the service of the applicant.

HEADQUARTERS OF THE ARMY,
ADJUTANT GENERAL'S OFFICE,
Washington, October 31, 1898,

By direction of the Secretary of War, the following is published to the Army for the information and guidance of all concerned:

From the methods of construction necessarily employed and from their location, magazines of seacoast batteries are especially liable to dampness resulting from condensation of moisture upon the masonry surfaces when warm moist air from the outside is permitted to enter freely. In aggravated cases the condensation covers the walls and fittings with beads of moisture which collect into streams and trickle

down the walls, forming pools of water on the floors. The injurious effects of dampness in magazines are manifested in the rapid deterioration of ammunition and the destruction of interior fittings of electric-light plants and ammunition conveyors. As condensation results from the warmer outer air coming in contact with the cooler masonry surfaces and depositing its moisture, an obvious remedy lies in the proper regulation of the ventilation.

When magazines are dry, all openings should be kept closed as far as practicable. Where magazines have become damp, a judicious regulation of the ventilation will accomplish much towards improving their condition. The most favorable time for opening magazines is when the outside air is cool and dry.

The proper ventilation of magazines is made the duty of all officers, and especially artillery commanders having charge of the batteries, who should give this matter their continued personal attention.

By direction of the Secretary of War, the following instructions are communicated to those concerned:

The commanding officer of each regiment of the Regular Army, and of each regiment or other separate organization of the Volunteer Army which is to remain in the service of the United States, will report to this office, without delay, the whole number of organized companies of his command, and the number of these which are supplied with cooks under the provisions of the act of Congress approved July 7, 1898 (General Orders, No. 94, Adjutant General's Office, July 12, 1898); also, whether, in his opinion, satisfactory results are being secured under the operation of the law in question.

Where the companies of a regiment or other separate organization are serving at widely separated stations, the report

will be made for each station by the senior officer of the regiment or organization serving thereat.

The indorsement "Enlisted as a cook," required by section 1, paragraph II, General Orders, No. 94, of 1898, to be made on the enlistment paper of every person enlisted under the provisions of the act cited, will be placed at the bottom of the brief fold of the enlistment paper. Recruiting officers must carefully observe the requirement that "men thus enlisted will be accounted for *as cooks* in the tables on the second and third folds of the trimonthly reports of the recruiting service;" and company and regimental commanders the further requirement that "cooks will be duly accounted for *as such* on all muster rolls and returns." The following decisions, rulings, etc., have been made, and are published to the Army for the information of all concerned:

1.-TRANSPORTATION.—General Orders, No. 114, August 9, 1898, from this office, contemplates that sick and wounded soldiers shall be given transportation to their actual homes without regard to their places of enlistment.—[*Orders Sec. War, Nov. 5, 98—24126 A. G. O.*]

2.-BOARDS OF SURVEY.—The authority given in paragraph 115 of the Regulations, as amended by General Orders, No. 45, May 16, 1898, Adjutant General's Office, to a regimental commander to call a board of survey when a soldier deserts, is not intended to interfere with the like authority heretofore given to a post commander.—[*Decision Sec. War, Nov. 8, 98—141953 A. G. O.*]

3.-COMMUTATION AND HIRE OF QUARTERS.—Officers whose commands are furloughed under paragraph 1, and who are not employed in accordance with paragraphs 4 and 5, General

Orders, No. 130, August 29, 1898, from this office, are regarded as awaiting orders for their *own convenience*. Hence, they are not entitled to quarters in kind or to commutation therefor. Commanders of furloughed regiments will not place officers or soldiers on duty during the furlough period, except for purposes specified in paragraphs 4 and 5 of the general orders above mentioned. Whenever practicable, officers and soldiers so detailed will be supplied and sheltered as prescribed in paragraph 21, General Orders, No. 124, Adjutant General's Office, August 20, 1898. Officers on duty with troops are not entitled to commutation of quarters. If their troops are barracked, they will be furnished with quarters in kind by the Quartermaster's Department. In the lack of public buildings available for the purpose, application to hire the necessary quarters will be made by the mustering officer to the Quartermaster General.

1..SUBSISTENCE STORES.—Civilian employees of all departments of the Government, in foreign possessions, will be permitted to purchase subsistence stores from the Subsistence Department at contract price, with ten per cent. added to cover freight.—[*Order Sec. War, Nov. 10, 98.*]

2..SUMMARY COURT.—Commanding officers of division field hospitals and division ambulance companies being responsible direct to the division surgeons and division commanders, have authority to appoint summary courts.—[*Decision Sec. War, Nov. 12, 98—122820 A. G. O.*]

3..AGE LIMIT—VOLUNTEERS ENLISTING IN THE REGULAR ARMY.—In cases of discharged volunteers over thirty-five

years of age who seek to enter the Regular Army more than three months after discharge, paragraph 838, clause 3, of the Army Regulations governs.

When discharged volunteers reenlist in the Regular Army *within three months after discharge*, the age limitation does not apply, and the applicants need not sign the declaration of recruit on the enlistment form. I.—The following decision has been made and is published to the Army for the information of all concerned:

ARMY CORPS BADGES.—By direction of the Secretary of War, the corps badges prescribed in General Orders, No. 99, July 15, 1898, from this office, are a part of the uniform of the Army, and serve as marks of identification the same as the symbols of the various arms of the service and the different staff corps.

The proper badge should be habitually worn as prescribed by all officers and enlisted men attached to an army corps.

To wear the badges of two or more army corps at the same time would defeat the object of their use, and be as incongruous as for a man transferred from one regiment to another to wear the numbers and symbols of both.

Upon occasions of ceremony, however, the badges to which officers and soldiers are properly entitled may be worn as prescribed in paragraph 1551, Army Regulations, the badge designating the wearer's proper corps to be worn separately above the line.—[*Decision Sec. War, Nov. 17, 98—158051 A. G. O.*]

II.—By direction of the Secretary of War, Circular, No. 45, October 27, 1898, from this office, is amended to read as follows:

Privates of the Hospital Corps, U. S. Army, who have been transferred from volunteer regiments which are to be mustered out of the service, will, if they so request, be discharged (not mustered out) and furnished final statements as of date of the receipt of the order in each case from this office by the proper officer under whom they are serving, provided that their service has been honest and faithful. The applications of such men will be forwarded by the surgeons commanding hospitals and ambulance companies through military channels to the Adjutant General with as little delay as practicable. By direction of the Secretary of War, the last paragraph of Circular Letter, War Department, Adjutant General's Office, January 3, 1896, is revoked, and the remaining portions of that circular letter, together with additional instructions regarding the subsistence of recruiting parties and recruits, are here published for the guidance of all concerned:

Upon the arrival of a recruiting officer at a city or town where he is to establish a recruiting station, he will at once make inquiries at the available places in the neighborhood of the station as to the prices at which meals for his party can be obtained and will procure them, of proper quality, by open purchase at the most reasonable rates, until he can advertise for proposals by means of Form No. 28, Subsistence Department. Payment for meals will be made in the manner indicated in the notes on that form.

Recruits forwarded from recruiting stations, recruit-rendezvous, or other military posts, will be furnished the following allowances for subsistence while traveling, viz:

WHEN ONE OR TWO MEN ARE FORWARDED.	WHEN MORE THAN TWO MEN ARE FORWARDED.
<p><i>For a journey of 24 hours or less:</i></p> <p>Cooked rations (to be obtained from the contractor for meals, or from the company or general mess).</p> <p><i>For a journey of more than 24 hours:</i></p> <p>Cooked rations, as above, for the first day, and, for remaining time of journey, commutation of rations at not exceeding \$1.50 per man per day.</p>	<p><i>For a journey of 24 hours or less:</i></p> <p>For a detachment of three or more men; travel rations (or, if not available, cooked rations to be obtained from the contractor for meals or from the company or general mess).</p> <p><i>For a journey of more than 24 hours:</i></p> <p>For a detachment of three or more men; for the first day, either travel or cooked rations as above. For remaining time of journey, travel rations if available, or, if not available, commutation of rations at not exceeding \$1.50 per man per day.</p>

Attention is called to that condition of the contract for meals (Form No. 28, Subsistence Department) which stipulates that lunches shall be furnished when required. These lunches (cooked rations) are intended to take the place of travel rations for recruits traveling, where it is not practicable to furnish the travel ration.

Recruiting officers who are not stationed at garrisoned posts will obtain subsistence funds, for advancing commutation of rations, when necessary, in the cases allowed herein, or to pay coffee money to recruits, by requisition upon the Chief Commissaries of the Departments in which they are respectively recruiting. In drawing checks against such funds placed to their credit in subtreasuries or depositories they will add, after their names, their rank and the designation "Commissary" simply, thus: "Henry Bell, Lieut., Commissary."

The Secretary of the Treasury, under section 3620, Revised Statutes, has authorized subsistence funds to be retained in small amounts in the personal possession of officers intrusted with the disbursement of the same, whenever such officers are stationed in places where there is no Treasurer or Assistant Treasurer of the United States. For convenience of recruiting officers who receive subsistence funds and make payments in small amounts, and of the recruits who receive such payments, it is preferable that payments be made in ready money rather than by checks on distant depositories.

When moneys are disbursed in different capacities, deposits and accounts must be kept distinct, according to the bureau to which they pertain. (A. R. 583.)

CIRCULAR LETTER—RECRUITING SERVICE.

1. Until further orders, all desirable applicants for the Artillery, heavy or light, who present themselves at a military post and pass the required examination, will be enlisted by the post recruiting officer and held subject to assignment from the Adjutant General's Office. Those enlisted at city stations will be disposed of in accordance with the special instructions already given the recruiting officers.

Recruits for the Artillery should be young, active men of a good degree of intelligence, and a considerable proportion of those enlisted for the heavy artillery should, in addition, possess a fair knowledge of arithmetic.

Recruits thus enlisted will be borne on the face of the recruiting officer's trimonthly reports, as other general service recruits, under the foot and mounted services, respectively; but in the tables on the 2d and 3d folds of such reports they will be accounted for as recruits for "heavy artillery," or "light artillery," as the case may be.

Commanding officers of posts who receive no special instructions in the matter, will telegraph to the Adjutant General of the Army, whenever there are two or more artillery recruits at a post available for assignment, designating the number for heavy artillery and light artillery, separately. Should their assignment to a regiment be ordered, the usual descriptive and assignment card in the case of each recruit (A. R. 850 and 851, and Form A. G. O. No. 7) will be mailed to the proper commanding officer. If ordered to another post, or rendezvous, as unassigned recruits, Form No. 7 will be used in accordance with note thereon, as a descriptive card.

2. Recruiting for other arms at all stations will be limited to the enlistment, or reenlistment, of exceptionally desirable men who fulfill all requirements, whether recruits or former soldiers. Recruiting officers at city stations will also be governed by such additional restrictions as have been or may hereafter be communicated to them by the Adjutant General of the Army. These instructions will supersede those published in paragraph 2, Circular Letter, September 23, 1897, from this office.

3. The reports required by paragraphs 3 and 4, Circular Letter, December 16, 1895, from this office, are of special importance and must not be neglected. Hereafter post commanders will indicate in their reports to this office the total enlisted strength, not only of companies concerned, but also of the remaining portion of the same regiment at the post; and will furnish the Adjutant General of the Army with a copy of each report to the department commander.

Paragraphs 4 to 7, Circular Letter, September 23, 1897, from this office, are not designed to provide for the filling from city stations of vacancies in regiments until they occur; nor of such actual vacancies as can probably be filled by local enlistments.

4. When special authority is requested, for any cause, for the enlistment or reenlistment for an organization at the post from which the application is forwarded, it will be stated whether, or not, there is an actual vacancy therein for the applicant, and also whether the enlistment can be made without causing an excess in the proper enlisted strength of that portion of the regiment concerned stationed at the post.

5. When a reenlistment is antedated, under A. R. 835, the date on which it is to take effect will be indicated in the acknowledgment on the reenlistment paper. The oath will bear the date upon which it is actually administered, and the reenlistment will be borne on the trimonthly report and the recruiting return covering the date on which the man is duly sworn.

Under A. R. 824, a man who applies to reenter the Army after an interval of more than three months from date of discharge must sign the declaration of recruit and, if accepted and duly sworn, his enlistment paper must bear the date on which the enlistment is completed by administering the oath. A. R. 835 prohibits the antedating of enlistment papers in such cases.

Adjutant General.

U. S. ARMY RECRUITING CIRCULAR.

The following instructions will govern recruiting for the Regular Army in time of war:

Applicants for enlistment must be between the ages of 18 and 35 years, of good character and habits, able-bodied, free from disease, and must be able to speak the English language.

Married men will be enlisted only upon the approval of a regimental commander.

Minors must not be enlisted without the written consent of father, only surviving parent, or legally appointed guardian. Boys between the ages of 16 and 18, who may be needed as musicians may be enlisted as such, with the approval of the proper commanding officer.

Original enlistments will be confined to persons who are citizens of the United States, or who have made legal declaration of their intention to become citizens thereof.

Applicants will be required to satisfy the Recruiting Officer regarding age and character, and should be prepared to furnish the necessary evidence.

For Infantry and Artillery the height must be not less than five feet four inches, and weight not less than one hundred and twenty (120) pounds and not more than one hundred and ninety (190) pounds.

For Cavalry the height must be not less than five feet four inches and not more than five feet ten inches, and weight not to exceed one hundred and sixty-five (165) pounds. No minimum weight is prescribed for Cavalry, but the chest measures must be satisfactory.

Table of Physical Proportions for Height, Weight, and Chest Measurement.

It is not necessary that an applicant should conform exactly to the figures indicated in the table of proportions, the variation of a few pounds in weight either way, and of a fraction of an inch in chest measures, being permissible.

Applicants must defray their own expenses to the place of enlistment. Their fitness for the military service can be determined only upon examination at a military post, or other recruiting station.

The term of service is three years.

All soldiers receive from the Government (in addition to their pay) rations, clothing, bedding, medicines, and medical attendance.

The following are the rates of pay as fixed by law:

Grade.	Pay per month.	Pay per year.	Pay for 3 years.

To the rates of pay enumerated above 20 per centum will be added in time of war.

In addition one dollar per month for the third year of enlistment will be paid to the soldier. Soldiers reenlisting within three months from date of discharge receive a further increase of pay for the fourth and fifth years of service, and a still further increase for each five years of continuous service.

The soldier can deposit his savings in sums not less than \$5 with any Army paymaster, and for sums so deposited for the period of six months or longer, the soldier, on his final discharge, will be paid interest at the rate of four per cent per annum. These deposits are nonforfeitable except for desertion.

Whenever a soldier is honorably discharged at the expiration of his enlistment, or on account of disability not caused by his own misconduct, his travel-pay is ample to carry him to the place of enlistment.

By care and economy, a soldier can save from his clothing allowance a considerable sum, payable to him on his discharge.

For soldiers who have served honestly and faithfully twenty years, or who have been discharged for wounds received, or disease incurred in service, a comfortable HOME is maintained in the city of Washington. The sum of 12½ cents per month is deducted from each soldier's pay, to be applied toward the support of the HOME. After thirty years' service enlisted men are entitled to be retired, and upon retirement receive three-fourths of the monthly pay allowed by law to them in the grade they held when retired, and \$9.50 per month as commutation for clothing and subsistence.

BY COMMAND OF MAJOR GENERAL MILES:

CIRCULAR, }
No. 55. }

WAR DEPARTMENT,
ADJUTANT GENERAL'S OFFICE,
Washington, December 13, 1898.

The accompanying list, showing surety companies which have qualified to do business in the State in which incorporated, showing also the U. S. judicial districts in other States and Territories in which each has complied with Sec. 2, Act of August 13, 1894, and A. R., 577, to present date, is published for the information of all concerned.

BY ORDER OF THE SECRETARY OF WAR:

H. C. CORBIN,
Adjutant General.

List showing Surety Companies which have qualified to do business in the State in which incorporated, showing also the U. S. Judicial Districts in other States and Territories in which each has complied with Sec. 8, Act of August 19, 1894, and Army Regulation, 677, to date.

Enlistments.

The enlistment form for volunteers (A. G. O., No. 8, Vols.) will be used. This blank includes a form for the physical examination of recruits. All enlistments will be as privates, and only one enlistment paper will be made in the case of each volunteer soldier, except as provided for in note on blank. Enlistment papers will be transmitted to the Adjutant General of the Army by the recruiting officer on the 10th, 20th, and last day of each month, with a trimonthly report prepared on Form A. G. O., No. 29. Recruiting officers are required to give *personal* attention to the preparation and forwarding of these reports, as it is of first importance that they be *promptly and correctly* rendered in accordance with the instructions thereon.

Each trimonthly report, with the enlistment papers pertaining thereto, will be mailed to this office in an envelope containing no other matter. No enlistment papers are to accompany the copy of the trimonthly report sent to the regimental or other commander.

An assignment card (A. G. O., No. 9, Vols.) will be prepared for each recruit enlisted and will be sent to the destination of the recruit, as provided in paragraph 850, Army Regulations, and the instructions on the card.

Great care must be taken in the preparation of all these blanks, and it is specially important that the designation of the regiments for which enlistments are made be correctly indicated thereon.

These instructions are *not* intended to apply when authority is given to raise additional companies for any organization. (Paragraph 5, General Orders, No. 61, of 1898.)

Maximum Limits.

For a regiment the maximum of all grades, commissioned and enlisted, must not exceed 1,326 infantry, or 1,255 in cavalry.

For a company the maximum of all grades is 106 in infantry, 100 in cavalry, 173 in field artillery, and 200 in heavy artillery; *provided* that the maximum strength of all grades for regiments as herein given shall in no case be exceeded.

Whenever practicable the choice by an accepted applicant of a particular company of the regiment or other organization

for which the recruiting officer is making enlistments should be respected, *provided*, there is a vacancy therein.

Recruiting officers will communicate frequently with their commanding officers in order to keep fully advised of the number of recruits required from time to time, and to prevent making enlistments that will carry a regiment, battalion, or any company beyond the authorized maximum.

Recruiting Stations and Quartermaster's Supplies.

Emergency agreements may be entered into for renting suitable quarters when required for temporary recruiting stations and the furnishing of supplies therefor. Certified vouchers for such rent and other actually necessary expenditures pertaining to the Quartermaster's Department should be forwarded for payment to the chief quartermaster of the department within the geographical limits of which the recruiting is being done, to whom the recruiting officers should also apply for necessary transportation requests and for any desired information regarding the use thereof, the route by which recruits should be sent, etc.

Subsistence of Recruiting Parties and Recruits.

Subsistence funds for payment of commutation of rations for recruits, or to pay coffee money to them, can be obtained by the recruiting officer from the chief commissary of the department within the geographical limits of which he is recruiting. Circular Letter, Adjutant General's Office, January 3, 1896, publishes instructions regarding the subsistence of recruits while traveling.

Upon the arrival of a recruiting officer at a city or town where he is to establish a recruiting station, he will at once make inquiries at the available places in the neighborhood of the station as to the prices at which meals for his party can be obtained and will procure them, of proper quality, by open purchase at the most reasonable rates, until he can advertise for proposals by means of Form No. 28, Subsistence Department. Payment for meals will be made in the manner indicated in the notes on that form. Attention is called to that condition of the contract for meals (Form No. 28, Subsistence

Department) which stipulates that lunches shall be furnished when required. These lunches are intended to take the place of travel rations for recruits traveling, where it is not practicable to furnish the travel ration.

The Secretary of the Treasury, under section 3620, Revised Statutes, has authorized subsistence funds to be retained in small amounts in the personal possession of officers intrusted with the disbursement of the same, whenever such officers are stationed in places where there is no Treasurer or Assistant Treasurer of the United States. For convenience of recruiting officers who receive funds and make payments in small amounts, and of the recruits who receive such payments, it is preferable that payments be made in ready money rather than by checks on distant depositories.

Additional Instructions, Blanks, etc.

To supplement the instructions contained in this circular letter, each recruiting officer detailed under the provisions of General Orders, No. 61, of 1898, will, in accordance with paragraph 3 of that order, be furnished, through the Adjutant General of the State, with a copy thereof, and of General Orders, No. 29, of 1898, from this office; also with Circular Letter, Adjutant General's Office, January 3, 1896, herein referred to, and with necessary blanks pertaining to the recruiting service, and to the Quartermaster's, Subsistence, and Medical Departments.

Completion of Duties.

When the organization for which an officer is recruiting has been filled to the maximum, he will at once report the fact through his immediate commanding officer to the proper Department or Corps Commander, together with the names of the members of his recruiting party, with a view to the issue of the necessary orders.

II.—Enlistments *in the field* for a volunteer organization already mustered into the service of the United States, and in which there are vacancies, will be made by the proper mustering officer of the department, corps, division, or district in which the organization is serving. In such cases the enlistment form (A. G. O., No. 8, Vols.) will be used, and will

be forwarded by the mustering officer to the Adjutant General of the Army. An assignment card (A. G. O., No. 9, Vols.) will be prepared in the case of each recruit and sent to the commanding officer of the organization for which he is enlisted.
